DEAR SENATOR: Attached is a list showing relative apportionments per average daily attendance provided by Senate Bill No. 1368 and Assembly Bill No. 2120 for each of the school districts. This list was compiled pursuant to Senate Resolution No. 70.

The information shows the average daily attendance for 1945-46, the assessed valuation per average daily attendance, basic support by the State under Assembly Bill No. 2120, the maximum district tax based on assessed valuation and the total of basic state aid and the school district tax per average daily attendance. This same information is shown for Senate Bill No. 1368.

The code number referred to in the left-hand column is the Department of Education school district code.

Very truly yours,

The boundaries of any incorporated town or city may be altered and uninhabited territory annexed thereto, incorporated and included therein, upon proceedings being taken as in this act provided. For the purpose of this act, any territory wherein less than [3] 12 registered voters reside shall be deemed to be uninhabited territory. Any such territory so uninhabited at the time of the filing of the petition for annexation or of the institution of proceedings under this act by the legislative body of a municipality on its own motion, as the case may be, shall be deemed uninhabited for all purposes of this act.

SEC. 4. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

The extreme shortage of housing in the State of California and the lack of a sufficient number of vacant lots within cities on which to build such housing has made it necessary to build outside of cities and in the fringe areas adjacent thereto. In order to provide such housing with the necessary sewage, sanitation and utility services, it is essential that such areas be permitted to annex to contiguous cities which would be able to extend existing municipal services to the annexed areas. The immediate adoption of this act will enable cities and areas adjacent thereto which desire to annex to such cities to provide police, fire protection, sewage and sanitation services to such housing as soon as constructed. It is therefore necessary that this act take effect immediately."

REQUEST FOR UNANIMOUS CONSENT

Senator Quinn asked for, and was granted, unanimous consent to have the following opinion of the Legislative Counsel regarding definition of veterans, printed in the Journal in 10-point type:

Opinion of Legislative Counsel

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL

SACRAMENTO 2, CALIFORNIA, April 3, 1947

Definition of Veterans' Association No. 3760

Hon. Irwin T. Quinn

Senate Chamber

DEAR SENATOR QUINN: You have asked for answers to the following questions with regard to Senate Bill No. 1474, as amended March 21, 1947, relating to the definition of "veterans' association":

(1) What will the bill do, if enacted into law and to what extent will it narrow or enlarge the present definition of "veterans' association"?

If the bill is enacted into law, the term "veterans' association" would include organizations or associations composed *solely* of persons who served honorably in time of war, (1) as members of the United States Army, Navy or Marine Corps, or (2) as members of the armed forces of

any nation allied with the United States during such war. Such an organization must be organized, as previously provided, for patriotic, fraternal, and benevolent purposes.

In 1946, the Board of Supervisors of Alameda County sought to deny the use of a memorial building to a chapter of the American Veterans Committee on the ground that since its membership included persons who had served in the United States Merchant Marine, the American Field Service, and as combat correspondents, this chapter was not a veterans' association within the meaning of Chapter 2, Division 6, of the Military and Veterans Code. Section 1260 (c) of Chapter 2, at that time, defined a veterans' association to mean: "any association or organization of veteran soldiers, sailors, or marines * * *". The Attorney General of this State in an opinion dated May 7, 1946, indicated that had the Legislature intended to limit the application of Section 1260 (c) to organizations composed "solely" of veterans, it would have done so, as it did by use of the term "composed solely of veterans" in a 1946 amendment to the Alcoholic Beverage Control Act. Hence, he was of the opinion that the A. V. C. chapter was a "veterans' organization" within the meaning of Section 1260 (c). (7 Ops. A. G. 301.)

It appears, therefore, that the inclusion of the word "solely" in S. B. 1474, would indicate that the Legislature intended to narrow the definition of "veterans' association" and would exclude such organizations as the chapter of the American Veterans Committee already mentioned.

(2) Does the bill exclude "auxiliaries" of veterans' organizations, composed of veterans' wives, mothers, sisters, etc., who did not serve in the armed forces, from any benefit these "auxiliaries" now have under Sections 1260-1262 of the Military and Veterans Code?

Since the "auxiliaries" referred to are not at the present time composed of persons who served in the armed forces, the enactment of this bill into law will not change their status. As to the use of memorial halls, public officers or boards having charge of such buildings may permit the incidental use thereof by other organizations when such use does not interfere with the purposes for which these buildings were constructed. (*Gridley Camp No. 104 v. Board of Supervisors*, 98 C. A. 585.)

Very truly yours,

FRED B. WOOD, Legislative Counsel

"Sec. 10. (a) For the purposes of this section, the following definitions shall apply to the terms used therein: The term "city" shall mean and include any municipal corporation or municipality of the State of California, whether organized under a freeholder's charter or under the provisions of general law of the type and class of cities and incorporated towns; the term "water district" shall mean and include any municipal water district, municipal utility district, public utility district, county water district, irrigation district or any other public corporation or agency of the State of California of similar character.

(b) Territory may be annexed to any county water authority organized hereunder by one of the following methods:

(1) By annexation to, or consolidation with, the area of any city, the area of which, as a separate unit, shall have become a part of any county water authority organized hereunder, such annexation or consolidation to occur upon compliance with the provisions of law governing such annexation to, or consolidation with, the area of such city. Upon completion of such annexation to, or consolidation with, such city in compliance with the provisions of law applicable thereto, such territory shall become, and be, a part of such county water authority, and the taxable property therein shall be subject to taxation thereafter for the purposes of said county water authority, including the payment of bonds and other obligations of such authority at the time authorized or outstanding.

(2) By annexation to, or consolidation with, any city which, as a separate unit, shall have become a part of any water district the area of which water district, as a separate unit, shall have become a part of any county water authority organized hereunder, in instances where, under the applicable provisions of law governing the change of boundaries of such water district, such annexation or consolidation automatically will result in the enlargement of the area of such water district, such annexation or consolidation to occur upon compliance with the provisions of law governing such annexation to, or consolidation with, the area of such city. Upon completion of such annexation to, or consolidation with, such city in compliance with the provisions of law applicable thereto, such territory shall become, and be a part of such water district, and of such county water authority, and the taxable property therein shall be subject to taxation thereafter for the purposes of said water district and of said county water

authority, including the payment of bonds and other obligations of such water district and of such county water authority at the time authorized or outstanding. If any such territory shall have been so annexed to, or consolidated with, any such city prior to the effective date of this subparagraph (2), under conditions which would have resulted in the enlargement of the area of such county water authority had the foregoing provisions of this subparagraph (2) then been in effect, upon compliance with the following provisions of this subparagraph (2), such territory shall be annexed to, and shall become and be a part of, such county water authority, and shall be a part of such water district for all purposes, the last-mentioned provisions being as follows:

(aa) The governing body of such city, at any time after the effective date of this subparagraph (2), may adopt an ordinance which, after reciting that such territory has been annexed to, or consolidated with, such city by proceedings theretofore taken under statutory authority, and after referring to the applicable statutes and to the date and place of filing of the certificate or certificates evidencing such annexation or consolidation, shall describe such territory and shall determine and declare that the said territory shall be, and thereby is, annexed to such county water authority, and said ordinance shall further determine and declare that the said territory shall become and be, and thereby is, a part of such county water authority, and shall be, and thereby is, a part of such water district for all purposes.

(bb) The governing body, or clerk thereof, of such city shall file a certified copy of such ordinance with the Secretary of State of the State of California. Upon the filing of said certified copy of such ordinance in the office of the Secretary of State, such territory shall become, and be, a part of such county water authority, and shall be a part of such water district for all purposes, and the taxable property therein shall be subject to taxation thereafter for the purposes of said county water authority and of said water district, including the payment of bonds and other obligations of such county water authority at the time authorized or outstanding.

(cc) Upon the filing in his office of the aforesaid certified copy of such ordinance, the Secretary of State shall, within 10 days, issue his certificate, describing such territory, reciting the filing of said certified copy of such ordinance in his office and the annexation of said territory to such county water authority, and declaring that the said territory is a part of said county water authority and of such water district. The Secretary of State shall transmit the original of his said certificate to the secretary of such county water authority and a duplicate original of his said certificate to the clerk of the governing body of such water district, and shall forward a certified copy of his said certificate to the county clerk of the county in which such county water authority is situated.

(3) Upon terms and conditions fixed by the board of directors of such county water authority and in the manner provided in paragraph (c) hereof, by direct annexation, as a separate unit, of the corporate area of any water district or city.

(4) Upon terms and conditions fixed by the board of directors of such county water authority and in the manner provided in paragraph (d) hereof, by annexation to, or consolidation with, any water district, the area of which, in whole or in part, is included within such county water authority as a separate unit; provided, that unless such territory shall be so annexed to such county water authority with the consent of such board of directors, the annexation of such territory to, or the consolidation of such territory with, any such water district shall not authorize or entitle such water district or such territory to demand or receive any water from such county water authority for use in such territory; and provided further, that, except where automatic annexation results under the conditions mentioned in subparagraph (2) of this paragraph (b), nothing in this act shall prevent the annexation of territory to, or the consolidation of territory with, any such water district for its local purposes only and without annexing such territory to such county water authority, and such local annexation or consolidation may occur without requesting or obtaining the consent thereto of the board of directors of such county water authority.

(c) The governing body of any water district or city may apply to the board of directors of such county water authority for consent to annex the corporate area of such water district or city to the county water authority. The board of directors may grant or deny such application and in granting the same may fix the terms and conditions upon which the corporate area of such water district or city may be annexed to and become a part of the county water authority. Such terms and conditions may provide, among other things, for the levy by such county water authority of special taxes upon taxable property within such water district or city, in addition to the taxes elsewhere in this act authorized to be levied by such county water authority, and in case such terms and conditions shall provide for the levy of such special taxes, the board of directors in fixing such terms and conditions shall specify the aggregate amount to be so raised and the number of years prescribed for raising such aggregate sum, and that substantially equal annual levies will be made for the purpose of raising such sum over the period so prescribed. The action of the board of directors evidenced by resolution shall be promptly transmitted to the governing body of such applying water district or city, which governing body may thereupon submit to the qualified electors of such water district or city at any general or special election held therein, the proposition of such annexation subject to the terms and conditions fixed as herein provided. Notice of such election shall be given by posting or publication; when

given by posting such notice shall be posted at least ten (10) days and in three public places in the water district or city; when given by publication such notice shall be published once at least ten (10) days before the date fixed for the election in a newspaper of general circulation published in the water district or city. Such notice shall contain the substance of the terms and conditions fixed by the board of directors, as herein provided. Such election shall be conducted and the returns thereof canvassed in the manner provided by law for elections in such water district or city. If such proposition shall receive the affirmative vote of a majority of electors of such water district or city voting thereon at such election, the governing body of such water district or city shall certify the result of such election on said proposition to the board of directors of said authority, together with a legal description of the boundaries of the corporate area of such water district or city, accompanied by a map or plat indicating such boundaries. A certificate of proceedings hereunder shall be made by the secretary of the authority and filed with the Secretary of State. Upon the filing thereof in the office of the Secretary of State, the corporate area of such water district or city shall become, and be, an integral part of such county water authority, and the taxable property therein shall be subject to taxation thereafter for the purposes of said county water authority, including the payment of bonds and other obligations of such authority at the time authorized or outstanding, and the board of directors of such county water authority shall be empowered to do all things necessary to enforce and make effective the terms and conditions of annexation fixed as hereinabove authorized. Upon the filing in his office of the aforesaid certificate of proceedings the Secretary of State shall, within ten (10) days, issue his certificate, reciting the filing of said papers in his office and the annexation of the corporate area of such water district or city to such county water authority. The Secretary of State shall transmit the original of his said certificate to the secretary of such county water authority and shall forward a certified copy thereof to the county clerk of the county in which such county water authority is situated.

(1) In the event that a water district shall apply to a county water authority for consent to annex its corporate area, as a separate unit, which water district shall include as a part of its corporate area one or more cities, the corporate areas of which cities are already included within such county water authority as separate units, then that fact shall be taken into consideration by the board of directors of such county water authority in fixing the terms and conditions upon which said water district may be annexed to such county water authority, to the end that the areas within said cities which are already a part of such county water authority, shall not be required to assume any greater financial burden or obligation to such county water authority than they would have had if they had remained a part of such county water authority as separate units.

That concurrently with any election called by a water district to submit to the qualified electors of such water district, the question of whether the terms and conditions fixed by the board of directors of such county water authority for annexation shall be approved, the governing bodies of said cities may call and hold elections within their respective corporate limits to determine whether or not such cities shall withdraw from such county water authority separate units, and said proposed withdrawal may be made and submitted conditioned upon and effective when the said water district shall have finally been annexed to such county water authority.

The effect of such concurrent elections, if a majority of the electors of the said water district voting thereat vote in favor of annexation, and a majority of the electors of said cities voting thereat vote in favor of withdrawing, shall be that the said water district thereafter shall be authorized to exercise the privileges and to discharge the duties prescribed in this act for public agencies the areas of which, as separate units, are included within the said authority, in place of and instead of said cities so withdrawing. That notwithstanding anything to the contrary in Section 11 of this act, the areas within said cities shall remain a part of such county water authority and shall not be excluded therefrom notwithstanding the fact that said cities, as corporate entities, have withdrawn from said authority.

In the event that said water district does annex to such county water authority, then the directors representing said cities on the board of directors of such county water authority, shall continue to act until their successors have been chosen and designated by the appropriate officers of said water district and have qualified as members of the board of directors of such county water authority, after which time the said directors representing said cities, shall no longer be entitled to sit or vote on said board.

(d) The governing body of any water district, the area of which, in whole or in part, is included within such county water authority as a separate unit, may apply to the board of directors of such county water authority for consent to annex to such county water authority territory which it is sought to annex to, or consolidate with, such water district, or territory which, without making the same a part of such county water authority, already has been annexed to, or consolidated with, such water district. The board of directors may grant or deny such application and in granting the same may fix the terms and conditions upon which such territory may be annexed to, and become a part of, the county water authority. Such terms and conditions may provide, among other things, for the levy by such county water authority of special taxes upon taxable property within such territory in addition to the taxes elsewhere in this act

authorized to be levied by such county water authority, and in case such terms and conditions shall provide for the levy of such special taxes, the board of directors in fixing such terms and conditions shall specify the aggregate amount to be so raised and the number of years prescribed for raising such aggregate sum, and that substantially equal annual levies will be made for the purpose of raising such sum over the period so prescribed. The action of the board of directors evidenced by resolution shall be promptly transmitted to the governing body of such applying water district, and if such action shall grant consent to such annexation, such territory may be annexed to such county water authority as provided in subdivisions (1) or (2) hereof.

(1) If such territory has not theretofore been annexed to or consolidated with such water district, upon completion of such annexation to, or consolidation with, such water district in compliance with the provisions of law applicable thereto, including this Section 10, such territory shall become and be a part of such county water authority and the taxable property therein shall be subject to taxation thereafter for the purposes of said county water authority, including the payment of bonds and other obligations of such authority at the time authorized or outstanding, and the board of directors of such county water authority shall be empowered to do all things necessary to enforce and make effective the terms and conditions of annexation fixed as hereinabove authorized; provided, that if the applicable provisions of law governing such annexation to, or consolidation with, such water district shall require any notice of any election called for the purpose of determining whether such proposed annexation or consolidation shall occur, or shall require any notice of hearing or other notice to be given to the residents or electors of, or owners of property in, such territory, such notice shall contain the substance of the terms and conditions of annexation to such county water authority fixed by the board of directors of such authority as herein provided; and provided further, that the governing body of such water district or other officer thereof having the duty of certifying the proceedings resulting in such annexation to, or consolidation with, such water district, pursuant to the provisions of law applicable thereto, shall include in such certification a record of the proceedings by which such territory has been annexed to such county water authority in accordance with the provisions hereof, and shall file a duplicate of such certificate with the board of directors of such county water authority.

(2) If the territory sought to be annexed to such county water authority theretofore has been annexed to, or consolidated with, such water district, the governing body of such water district, upon being advised of the action of the board of directors of such county water authority, as above provided, and if such action shall grant consent to such annexation, may submit to the qualified electors of such territory, at any general or special election held therein, the proposition of such annexation to such county water authority subject to the terms and conditions fixed by the board of directors of such county water authority, as herein provided. Notice of such election shall be given by posting or publication; when given by posting such notice shall be posted at least ten (10) days and in three public places in such territory; when given by publication such notice shall be published once at least ten (10) days before the date fixed for the election in a newspaper of general circulation published in such water district. Such notice shall contain the substance of the terms and conditions fixed by the board of directors, as herein provided. Such election shall be conducted and the returns thereof canvassed by the governing body of such water district in the manner provided by law for elections in such water district. If such proposition shall receive the affirmative vote of a majority of electors of such territory voting thereon at such election, the governing body of such water district shall certify the result of such election on said proposition to the board of directors of said authority. A certificate of proceedings hereunder shall be made by the secretary of the authority and filed with the Secretary of State. Upon the filing thereof in the office of the Secretary of State, such territory shall become, and be, a part of such county water authority, and the taxable property therein shall be subject to taxation thereafter for the purposes of said county water authority, including the payment of bonds and other obligations of such authority at the time authorized or outstanding, and the board of directors of such county water authority shall be empowered to do all things necessary to enforce and make effective the terms and conditions of annexation of such territory to such county water authority fixed by said board of directors as hereinabove authorized. Upon the filing in his office of the aforesaid certificate of proceedings the Secretary of State shall, within ten (10) days, issue his certificate, reciting the filing of said papers in his office and the annexation of such territory to such county water authority. The Secretary of State shall transmit the original of his said certificate to the secretary of such county water authority and shall forward a certified copy thereof to the county clerk of the county in which such county water authority is situated.

(e) The validity of any proceedings for the annexation to any authority organized hereunder, of the corporate area of a water district or city as a separate unit, or of territory annexed to, or consolidated with, a water district or city which, as a unit, shall have been included within such authority, shall not be contested in any action unless such action shall have been brought within three months after the completion of such annexation, or, in case such annexation is completed prior to the time that this

paragraph takes effect, then within three months after this paragraph shall have become effective.

(f) Whenever territory is annexed to or consolidated with any water district, the corporate area of which, as a unit, shall have become a part of any county water authority organized hereunder, irrespective of whether such territory is annexed to or becomes a part of such county water authority, or whenever territory is annexed to any city under the conditions mentioned in subparagraph (1) or subparagraph (2) of paragraph (b) of this section, or whenever territory previously annexed to any city is annexed to such county water authority under the conditions mentioned in said subparagraph (2) of paragraph (b) of this section, the governing or legislative body, or clerk thereof, of such water district or city, shall file with the board of directors of such county water authority a statement of the change of boundaries of such water district or city, setting forth the legal description of the boundaries of such water district or city, as so changed, and of the part thereof within such county water authority, which statement shall be accompanied by a map or plat indicating such boundaries.

(g) The inclusion in a county water authority of the corporate area, in whole or in part, of any municipal water district, municipal utility district, public utility district, county water district, irrigation district, or other public corporation or agency of the State of California of similar character, referred to in Section 2 of this act, shall not destroy the identity or legal existence or impair the powers of any such municipal water district, municipal utility district, public utility district, county water district, irrigation district, or other public corporation or agency of the State of California of similar character, notwithstanding the identity of purpose or substantial identity of purpose of such county water authority.

SEC. 2. If any section, subsection, sentence, clause or phrase of this act, or of the act or acts of which this act is amendatory or supplemental, is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this act. The Legislature hereby declares that it would have passed this act, and each section, subsection, sentence, clause and phrase thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses or phrases of this act, or that any one or more sections, subsections, sentences, clauses or phrases of the act or acts of which this act is amendatory or supplemental, be declared unconstitutional. If any section, subsection, sentence, clause or phrase of this act for any reason be held to be unconstitutional and such unconstitutional provision shall have purported to repeal or amend any provision of the act or acts of which this act is amendatory or supplemental, the provisions existing and in force at the time of the enactment of this act shall remain and be in full force and effect notwithstanding such purported repeal or amendment."

Amendment No. 2

On page 1 of said bill, strike out lines 1 to 12, inclusive, and insert
“SECTION 1. It is the intention of the Legislature, recognizing the inconsistency of applying a statutory system of credits to a prison term fixed under the indeterminate sentence law, to abolish by this act the statutory system of credits now in use in the prisons of this State. To the end that such purpose may be accomplished in an orderly fashion, it is the intention of the Legislature that all persons convicted of a felony and received at a state prison or institution under the jurisdiction of the Director of Corrections on or before December 31, 1947, shall continue to be allowed the present statutory credits, shall continue to be held for the present minimum terms, and shall continue to be eligible for release on parole at the times now specified. Such shall be the

case, even though such a prisoner shall be released on parole and returned for violation of parole to the state prison or institution. Where the person is received at a state prison or institution under the jurisdiction of the Director of Corrections on or after January 1, 1948, it is the intention of the Legislature that no statutory credits be allowed him. As the terms of prisoners are shortened by the allowance of credits, provision is made in this act for an earlier parole date and for an earlier discharge date in the case of this latter class of prisoners.

SEC. 2. Section 2926 of the Penal Code is amended to read:

2926. The provisions of this article are to apply to all prisoners [now] serving sentence on December 31, 1947, in the state prison, to the end that at all times the same provisions relating to credits shall apply to all [the] such inmates thereof. *No prisoner received on or after January 1, 1948, at any state prison or institution under the jurisdiction of the Director of Corrections shall receive or be allowed any credits provided for in this article or under Section 2789 of this code.*

SEC. 3. Section 3024.5 is added to said code, to read:

3024.5. When any person received on or after January 1, 1948, at a prison or institution under the jurisdiction of the Director of Corrections, is serving a sentence in which the legal minimum is five years or more and has been granted a parole, the Adult Authority may refix his term to discharge such prisoner at any time after he has served two-thirds of such minimum term whenever the authority determines that such person has made a satisfactory adjustment and rehabilitation on parole.

SEC. 4. Section 3047.5 is added to said code, to read:

3047.5. Notwithstanding the provisions of Section 3047 of this code, any person imprisoned as an habitual criminal under paragraph (a) of Section 644 and received on or after January 1, 1948, at a state prison or institution under the jurisdiction of the Director of Corrections shall not be eligible for a release on parole until he shall have served a minimum term of at least nine years.

SEC. 5. Section 3048.5 is added to said code, to read:

3048.5. Notwithstanding the provisions of Section 3048 of this code, any person imprisoned as an habitual criminal under paragraph (b) of Section 644 and received on or after January 1, 1948, at a state prison or institution under the jurisdiction of the Director of Corrections shall not be eligible for release on parole until he shall have served a minimum term of at least 12 years.

SEC. 6. Section 3049 of said code is amended to read:

3049. In all other cases not heretofore provided for, no prisoner may be paroled until he has served the minimum term of imprisonment provided by law for the offense of which he was convicted, except that in cases *where the prisoner was serving a sentence on December 31, 1947, and in which the minimum term of imprisonment is more than one year, he may be paroled at any time after the expiration of one-half of the minimum term, with benefit of credits, but in no case shall he be paroled until he has served one calendar year[.] ; provided, that any prisoner, received on or after January 1, 1948, at any state prison or institution under the jurisdiction of the Director of Corrections, whose minimum term of imprisonment is more than one year, may be paroled at any time after the expiration of one-third of the minimum term, but in no case shall he be paroled until he has served one calendar year."*

Amendments read, and adopted.

Senate Bill No. 1559—An act to provide for the participation by the State of California in public centennial celebrations to be held at the City of Benicia, making an appropriation, declaring the urgency thereof and providing that this act shall take effect immediately.

Bill read third time.

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the passage of Senate Bill No. 1559:

STATE OF CALIFORNIA
GOVERNOR'S OFFICE, SACRAMENTO, May 6, 1947

*To the Honorable Members of the Senate
Sacramento, California*

GENTLEMEN:

Senate Bill No. 1559—"An act to provide for the participation by the State of California in public centennial celebrations to be held at the City of Benicia, making an appropriation, declaring the urgency thereof and providing that this act shall take effect immediately,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

It is entirely fitting that the proper observance be held commemorating the centennial anniversary of the founding of the City of Benicia on June 14, 1947. This centennial occurs within such a short time that immediate consideration of this appropriation is necessary. If this bill is not passed by the Legislature promptly it will be too late for the State to assist in the observance of this centennial.

For these reasons I therefore recommend consideration of Senate Bill No. 1559 as an emergency measure.

Respectfully submitted.

EARL WARREN, Governor

LETTER OF TRANSMITTAL

LEGISLATIVE BUDGET COMMITTEE
CAPITOL, SACRAMENTO, CALIFORNIA, May 5, 1947

Hon. George J. Hatfield
Senator, Twenty-fourth District
State Capitol

DEAR SENATOR: Attached is a list showing relative apportionments per average daily attendance provided by Senate Bill No. 1368 and Assembly Bill No. 2120 for each of the school districts. This list was compiled pursuant to Senate Resolution No. 70.

The school districts are arranged in descending order of assessed valuation per average daily attendance rather than a breakdown by counties.

The information shows the average daily attendance for 1945-46, the assessed valuation per average daily attendance, basic support by the State under Assembly Bill No. 2120, the maximum district tax based on assessed valuation and the total of basic state aid and the school district tax per average daily attendance. This same information is shown for Senate Bill No. 1368.

The code number referred to in the left-hand column is the Department of Education school district code.

Very truly yours,

ROLLAND A VANDEGRIFT, Legislative Auditor

PROCEEDINGS UNDER CALL OF THE SENATE**MESSAGES FROM THE GOVERNOR**

STATE OF CALIFORNIA

GOVERNOR'S OFFICE, SACRAMENTO, May 8, 1947

*To the Honorable Members of the Senate
State of California, Sacramento, California*

GREETINGS: I am returning herewith, without my signature,

Senate Bill No. 660, entitled: "An act to amend Section 6 of an act entitled 'An act to promote the welfare of the poultry industry of the State of California; to encourage the breeding of poultry stock through public testing and demonstration of the results of superior breeding, and to make an appropriation,' approved July 22, 1939, relating to the Poultry Improvement Commission."

My objections to this bill are as follows:

I am advised by the Legislative Counsel that Senate Bill No. 662, now before me for approval, makes the same change as this bill and transfers the provisions to the Agricultural Code, repealing the act which would be amended by this bill. That officer advises me that if both Senate Bill No. 662 and this bill are approved, this bill will be ineffective for any purpose regardless of the order of approval.

Inasmuch as approval of this bill would accomplish nothing, I am returning it without my approval to avoid unnecessary additions to the statutes.

Respectfully submitted.

EARL WARREN, Governor

RESOLUTIONS

The following resolution was offered:

By Senator Brown:

Senate Resolution No. 81

Relating to certain bills pending in Congress on the subject of cancelling the authority of the City of Los Angeles to purchase certain public lands in Mono County

WHEREAS, There is now pending in the Congress of the United States a bill, No. S. 36, introduced by the Honorable Patrick A. McCarran, Senator from Nevada, to cancel the authority of the City of Los Angeles, under the Act of June 23, 1936 (Public Law No. 769; 49 Statutes 1892), to receive a conveyance of public lands in California upon payment therefor to the United States at the rate of \$1.25 per acre; and

WHEREAS, There is also pending in the Congress a bill, No. H. R. 727, introduced by the Honorable Clair Engle, Representative from California, to repeal the Act of March 4, 1931 (Public Law No. 864; 46 Statutes 1530), which withdrew certain public lands in the State of California from settlement; and

WHEREAS, The City of Los Angeles has pending with the Department of Interior an application (Sacramento No. 036130) pursuant to said acts, for the purchase by, and conveyance to, said city, of more than twenty-three thousand acres of public lands of the United States situated in Mono County, California, for the purpose of securing water rights in Mono Basin; and said city also has an application pending with said department (Sacramento No. 036149) for rights of way for Mono Basin Aqueduct and appurtenances in Mono County, California, now covered by government permits issued in 1937; and

WHEREAS, The acquisition of lands in fee as applied for by said city is wholly unnecessary for the purpose of obtaining water rights, since the city may obtain all required easements, permits, licenses, rights of way and other rights less than the fee, for the appropriation, diversion, storage, and conveyance of water upon the public lands so applied for; and

WHEREAS, The acquisition of the title in fee is wholly unnecessary to provide sanitary protection for waters, watercourses, reservoirs and aqueducts belonging to said city and now existing within Mono Basin; and

WHEREAS, The conveyance of said lands to the City of Los Angeles under authority of the Acts of Congress above referred to would adversely affect and damage the rights and privileges of many persons now residing on and in many cases conducting business on, said lands applied for; and

WHEREAS, Such persons hold permits from the Forest Service of the United States, and many have made valuable improvements on said lands and have expended large sums thereon, and acquisition of said lands by the City of Los Angeles would render the tenure of said persons on such land extremely uncertain and subject to the whim and caprice of officials of said city; and

WHEREAS, Approximately five thousand acres of forest land lying within the Mono National Forest is included within the tract applied for by the City of Los Angeles, and conveyance of the fee title of such land to said city for a consideration practically nominal, is contrary to the purpose and intent of the conservation statutes whereby such land was set apart as a forest reserve; and

WHEREAS, The conveyance of said lands to the City of Los Angeles would constitute a grave threat to the financial structure of Mono County, since said county now receives substantial sums from the Federal Government out of the receipts of national forest operations, the money being used for schools and roads, and said county receives 50 percent of the revenues received from lands lying therein, under the Taylor Grazing Act; and

WHEREAS, The history of the dealings of the City of Los Angeles and its Department of Water and Power with owners of real property in Inyo County (an adjoining county wherein said city has acquired for water rights the major portion of all land) has been, over a course of more than thirty years, acrimonious and replete with litigation, controversy, bitterness and recrimination, as evidenced by official and unofficial

reports and communications to the Legislature and the Governor of California, and the acquisition of lands by said city in Inyo County has had an adverse and deleterious effect on the economic life of said county; and

WHEREAS, The Senate Committee on Local Governmental Agencies appointed pursuant to resolution of the 1945 Regular Session of the California Legislature made a thorough study of the application of the City of Los Angeles for the land above described, and issued its report on October 19, 1945, and the majority of said committee, consisting of all the members thereof except one, concluded that a conveyance of the fee title of said land was unnecessary to protect the interests of the City of Los Angeles, and that said city could obtain easements, rights of way, licenses, permits and rights less than the fee; and a minority report having been filed by Honorable Jack B. Tenney, State Senator from Los Angeles County; now, therefore, be it

Resolved by the Senate of the State of California, That the Congress of the United States is hereby urged and memorialized to enact said bills numbered S. 36 and H. R. 727 into law; and be it further

Resolved, That the Secretary of the Senate be directed to transmit a copy of this resolution to the President of the United States, to the President pro Tempore of the Senate and the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

Bill read second time.

Consideration of Committee Amendments

The following amendments were proposed by the Committee on Governmental Efficiency:

Amendment No. 2

On page 1 of said bill, after line 24, insert:

"Sec. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

Numerous elective officers of the State and of the public agencies which have contracted with the State Employees' Retirement System for the inclusion of their employees in the system have elected to become members of the system, and many of these officers who have so elected membership have been reelected to their public offices for terms to expire after the officers will reach the age at which their retirement is compulsory under the present provisions of the State Employees' Retirement Law. Unless this act, which permits such elective officers to terminate their membership in the system prior to attaining the age of compulsory retirement, takes effect immediately, such elective officers will be compulsorily retired prior to the expiration of their terms of office, and the will of the electorate which elected them to public office will be defeated. To prevent the frustration of the will of the people, and the disruption of public services which will otherwise result from the enforced retirement of such public officials from public service, it is necessary that this act take effect immediately."

Opinion of Legislative Counsel

STATE OF CALIFORNIA

OFFICE OF LEGISLATIVE COUNSEL

SACRAMENTO 2, CALIFORNIA, May 8, 1947

Redondo Beach Charter—No. 4697

Hon. Glenn N. Anderson

Assembly Chamber

DEAR MR. ANDERSON: We have your request of May 8, 1947, asking whether the amendment to Article VI, Section 2, of the Redondo Beach Charter, adopted by the electors April 8, 1947, has the effect of depriving the mayor of the power of veto. This section, at present, reads:

"SEC. 2: The mayor shall preside at all meetings of the council and in case of his absence the council may appoint a mayor *pro tempore* and in case of the absence of the city clerk, any deputy or assistant city clerk may act as clerk, and in the absence of said clerk or any of his

deputies or assistants, the mayor or mayor pro tempore shall appoint one of the members of the council clerk pro tempore. *The mayor shall not have the right to vote, but shall have the power of veto as hereinafter set forth in this charter.* The mayor pro tempore shall not have the power of veto, but shall retain his power to vote."

The amendment, as set forth in the certificate of the mayor and city clerk, embodied in Assembly Concurrent Resolution No. 71, substitutes for the next to last sentence: "The mayor shall not have the right to vote, except in the case of a tie, and in that event, the mayor shall have the right to cast a vote for the purpose of deciding the issue."

By this amendment the cross reference to the power of veto has been deleted. Section 8 of Article X of the Redondo Beach Charter empowers the mayor to veto any order, resolution or ordinance. It is our opinion that the deletion of the reference to the mayor's power to veto in Section 2 does not, in any way, affect the power of veto given him by Section 8.

It is fundamental that the charter must be read as a whole, and that every part of it shall be given effect, except as it may be inconsistent with other parts. The people of Redondo Beach did not delete or repeal Section 8 and consequently, must be deemed to have intended that it be retained within the charter. Furthermore, the ballot proposition which was adopted, read: "Shall Section 2 of Article VI be amended to permit the mayor to vote in case of a tie?" It therefore appears that the question of the abolition of the mayor's veto power was never submitted to the people, and if the question were submitted to a court, it would undoubtedly hold that the only effect of the charter amendment was to permit the mayor to cast a vote in case of a tie, and not to affect his veto power in any respect.

Very truly yours,

FRED B. WOOD, Legislative Counsel
By JOSEPH L. KNOWLES, Deputy

MOTION TO TAKE BILL FROM THE INACTIVE FILE

Senator Deuel moved that Assembly Bill No. 1450 be taken from the inactive file, and placed on the second reading file.

Motion carried.

1268. The Attorney General shall, from time to time, commence actions on behalf of the State for the purpose of having it adjudged that title to real or personal property to which the State has become entitled by escheat, has vested in the State, and for the purpose of having it adjudged that property has been actually abandoned or that the owner thereof has died and there is no person entitled thereto and the same has escheated and vested in the State; provided, however, that any action for the escheat of real or personal property under the provisions of the Alien Land Law, as amended, may be instituted and prosecuted by the Attorney General or by the district attorney of the county in which such real or personal property is situated.

Such actions shall be brought in the Superior Court for the County of Sacramento; except that if any real property covered by the petition is not situated in the County of Sacramento, an action respecting the real property shall be commenced in the superior court for the county in which such real property, or any part thereof, is situated; provided further, that any action for the escheat of real or personal property under the provisions of the Alien Land Law, as amended, shall be commenced and prosecuted in the superior court for the county in which such real or personal property is situated.

Such action shall be commenced by filing a petition. The provisions of Section 1269 of this code, relating to the facts to be set forth in the petition, joinder of parties and causes of action, and the provisions of Section 1271 of this code, relating to appearances and pleadings, shall be applicable to any proceeding had under this section; provided, however, that in any action for the escheat of real or personal property under the provisions of the Alien Land Law, as amended, all of the provisions of the Alien Land Law, as amended, relating to the commencement and prosecution of such actions shall have the same effect as though incorporated in the provisions of this section, and the provisions of Section 1269 of this code, relating to the facts to be set forth in the petition, joinder of parties and causes of action, and the provisions of Section 1271 of this code relating to appearances and pleadings, shall, insofar as they are applicable, cover such actions.

Upon the filing of the petition, the court shall make an order requiring all persons interested in the property or estate to appear on a day not more than 90 days or less than 60 days from the date of the order and show cause, if any they have, why title to the property should not vest in the State of California.

Service of process in such actions shall be made by delivery of a copy of the order, together with a copy of the petition, to each person who claims title to any property covered by the petition and who is known to the Attorney General or the State Controller or who has theretofore filed in the office of the State Controller a written request for such service of process, stating his name and address, including street number, or post-office box number, if any, and by publishing the order at least once a week for four successive weeks in a newspaper published in the county in which the action is filed, the last publication to be at least 10 days prior to the date set for the hearing.

Upon completion of the service of process as provided in this section, the court shall have full and complete jurisdiction over the estate, the property, and the person of everyone having or claiming any interest in the property, and shall have full and complete jurisdiction to hear and determine the issues therein, and to render an appropriate judgment.

In addition to the foregoing publication of the order, a notice shall be given by publication, at least once a week for four successive weeks in a newspaper published in the county from which the property was forwarded to the State Treasury or is situated, of each estate and item of property from such county or situated in such county in excess of one thousand dollars (\$1,000). Such notice shall state that a petition has been filed and an order made as hereinbefore provided and shall list each estate and item in excess of one thousand dollars (\$1,000) and show the amount of the property if money, or a description thereof if other than money, and the name of the owner or claimant and his last known address, if known. Any omission or defect in the giving of such additional notice shall not affect the jurisdiction of the court.

If it appears from the facts found or admitted that the State is entitled to the property or any part thereof mentioned in the petition, judgment shall be rendered that title to such property or part thereof, as the case may be, has vested in the State by escheat.

Within five years after judgment of escheat to the State in any proceeding had under this title, except judgment in proceedings for the escheat of real or personal property under the provisions of the Alien Land Law, as amended, any person not a party or privy to such proceeding may file a petition in the Superior Court of the County of Sacramento, showing his claim or right to the property, or the proceeds thereof. A judgment of escheat to the State rendered pursuant to the provisions of the Alien Land Law, as amended, shall vest both legal and equitable title to the escheated property absolutely in the State, any other provisions of this title notwithstanding.

No costs of suit shall be allowed against any party in any action or proceeding had under this section."

"SEC. 34a. Appropriations from the General Fund of the State for any fiscal year, exclusive of appropriations for the support of the Public School System, shall not exceed by more than 5 percentum the appropriations from such fund, exclusive of such public school appropriations, for the preceding fiscal year unless two-thirds of all the members elected to each house of the Legislature vote in favor thereof; provided, that no amount appropriated in excess of such 5 percentum shall become a part of the base for determining the maximum appropriation for a succeeding fiscal year and provided that the base for the Ninety ninth Fiscal Year shall be one-half of the base in effect for the Ninety-seventh and Ninety-eighth Fiscal Years plus 5 percentum. Should the appropriations in the Budget Act for any fiscal year exceed the limitations herein prescribed, and such Budget Act be not passed by such two-thirds vote, the several items of appropriation therein shall be deemed reduced by that percentage which the excess amount of appropriation bears to the total appropriation. Should the prescribed limit for any fiscal year be exceeded by reason of any other appropriation or appropriations from the General Fund, then the appropriation first passed by the Legislature without such two-thirds vote, which exceeds such prescribed limitation, shall be deemed reduced by the amount of such excess, and all other subsequent appropriations from the General Fund not passed by such two-thirds vote shall be void. Nothing herein contained shall prevent the Governor from vetoing any bills or reducing any appropriation therein or any appropriation reduced as herein provided.

[Not more than 25 percentum of the total appropriation from all funds of the State shall be raised by means of taxes on real and personal property according to the value thereof.]

REQUEST FOR UNANIMOUS CONSENT

Opinion of Legislative Counsel

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL

SACRAMENTO, CALIFORNIA, May 14, 1947

Conference Committee Reports—No. 383

Hon. George J. Hatfield
Senate Chamber

DEAR SENATOR HATFIELD: You have asked us whether a conference committee report must be signed by at least a majority of the members of the Senate committee on conference and by a majority of the members of the Assembly committee or whether it is sufficient if the report

is signed by any four members of the two committees. The question arises by reason of a provision in Joint Rule 29 that it shall require the affirmative vote of not less than "four of the members constituting the committee" to agree on a report.

It is our opinion that a conference report can be properly submitted only when signed by at least a majority of the members of the Senate committee and a majority of the members of the Assembly committee.

The procedure in acting on bills by conference committees is set forth in Mason's Manual of Legislative Procedure, which governs the relations between the houses in cases not covered by the joint rules, pursuant to Joint Rule 31. Section 565 of that manual declares that the committee of each house votes separately and Section 566 declares that the reports shall be signed by the members or a majority of the members of each committee. We find nothing in the joint rules in conflict with these provisions which are in accord with the general parliamentary law.

At an early date we will furnish you with a memorandum in more detail on this point in which we will discuss the history of the pertinent joint rules.

Very truly yours,

FRED B. WOOD, Legislative Counsel
By LAWRENCE G. ALLYN, Deputy

WHEREAS, The Salesian Fathers, in carrying on the youth program of St. John Bosco, beloved apostle of youth, in such activities as the Salesian Boys' Club of San Francisco, have given spiritual and moral training to the youth of our State, contributing greatly to the development of outstanding citizens and leaders; and

WHEREAS, The City and County of San Francisco, in which much of this splendid work has been done, will hold a civic celebration in the War Memorial Opera House in San Francisco, on Friday evening, May 23, 1947, honoring the Golden Jubilee of the Salesians of St. John Bosco in California; now, therefore, be it

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA
GOVERNOR'S OFFICE, SACRAMENTO, May 15, 1947

*To the Senate of the State of California
Sacramento, California*

GENTLEMEN: I am transmitting to you herewith a copy of a message with reference to Senate Bill No. 469 entitled "An act to add Section 16012 to the Government Code, relating to the disposition of unexpended balances of appropriations from the State Treasury."

This bill, with my message relative thereto, I (through my Legislative Secretary) delivered to Honorable Burt W. Busch, Member of the Senate, at 11:45 o'clock p.m. on the fourteenth day of May, 1947, at which time your honorable body had adjourned for the day but not for the session.

Respectfully submitted.

EARL WARREN, Governor

Message read, and ordered printed in the Journal.

STATE OF CALIFORNIA
GOVERNOR'S OFFICE, SACRAMENTO, May 14, 1947

*To the Honorable Members of the Senate
State of California, Sacramento, California*

GREETINGS:

I am returning, herewith, without my signature,

Senate Bill No. 469, entitled: "An act to add Section 16012 to the Government Code, relating to the disposition of unexpended balances of appropriations from the State Treasury."

My objections to this bill are as follows:

This bill was introduced at the suggestion of the Department of Finance to permit the return of unexpended balances of appropriations to the fund from which appropriated when the project for which the money was transferred has been completed.

The State Controller advises me that the provisions of this bill are more far-reaching than is necessary to accomplish the desired purpose. The Controller states that the Attorney General has orally construed language similar to that contained in this bill to the effect that the expending agency shall keep a record of all expenditures chargeable against an appropriation to mean that the account shall be maintained only by the expending agency and that the Controller is neither required nor has the authority to maintain such an account.

The Controller also states that in his opinion re-transfer of unused balances after the purpose for which the appropriation has been made has been completed should be mandatory and not discretionary with the Department of Finance or any other department. The requirements of the present reversion statute are such that re-transfers of the type referred to are not discretionary but are mandatory. The provisions of this bill would make the re-transfers of unexpended balances discretionary with the Department of Finance.

The Director of Finance asks that this bill be vetoed because of the technical error in it.

Respectfully submitted.

EARL WARREN, Governor

Message read, and ordered printed in the Journal.
Senate Bill No. 469 ordered to the unfinished business file.

REQUEST FOR UNANIMOUS CONSENT

Senator Desmond asked for, and was granted, unanimous consent to have 250 additional copies of the Report of the Liaison Committee regarding "The Emergency Needs of California for Higher Education," printed in 10-point type.

LETTER OF TRANSMITTAL*To the Legislature of the State of California:*

May 7, 1947

In accordance with the instructions in Chapter 57, Statutes of 1947, reading as follows:

“SECTION 1. The State Department of Education of California and the Regents of the University of California are hereby authorized and directed to make a joint survey of the organization of publicly supported higher education in the State and need for additional publicly supported higher education facilities in the State. * * * As a part of the survey the State Department of Education and the Regents of the University of California shall investigate the emergency needs of the State for higher education, including such as may exist in Los Angeles County, and in Sacramento County, and report on such emergency needs, with recommendations, to the Legislature not later than May 15, 1947. * * *”

the State Board of Education and the Regents of the University of California submit the following report to the Legislature of the State of California, Fifty-seventh (General) Session:

The question of the establishment of four-year colleges at Los Angeles and Sacramento was referred by the two boards to their Liaison Committee, consisting of members of each board: Regents Chester H. Rowell, Maurice E. Harrison, A. J. McFadden and President Robert G. Sproul, representing the Regents of the University of California; Messrs. Fred W. Smith, Joseph P. Loeb and William L. Blair, representing the State Board of Education; and Regent James K. Moffitt and State Superintendent of Public Instruction Roy E. Simpson, ex officio members. This committee, in turn, set up a Survey Committee to make a study of the situation, consisting of Messrs. Frank N. Freeman, Edwin A. Lee, Frank B. Lindsay, William G. Paden and Aubrey A. Douglass.

The Survey Committee, although hampered by inadequate time to complete its studies, submitted a statement and conclusions, which are attached to this report as an appendix, and which were considered by the Liaison Committee for three hours on May 7, 1947.* The Liaison Committee voted unanimously to make the following recommendation to a joint meeting of the State Board of Education and the Regents of the University of California to be held that afternoon:

(a) That no state colleges (colleges offering instruction beyond the 14th year) be established at this time, but that the University of California and/or the state colleges, through extension, be authorized and instructed to offer at Sacramento College and Los Angeles City College such instruction as may be necessary to meet any needs that exist; and

(b) That the report of the Survey Committee be approved in all other respects.

The State Board of Education and the Regents of the University of California, meeting in joint session, considered the report of the Liaison Committee, and votes were taken by the two boards separately on the recommendation. The regents voted, 9 to 1, to adopt the recommendation. The vote of the State Board of Education was 3 to 3.

* Senators Desmond and Burns having sat with the Liaison Committee during its deliberation wished to go on record as being opposed to this recommendation.

The following motion was then introduced by Mr. Joseph Loeb of the State Board of Education, and separate votes taken by the two boards:

That the report of the Survey Committee be approved, with the exception of the last paragraph of the "Conclusions" thereof, which paragraph should be amended to read as follows:

"The immediate situation may be met through legislation providing for the location of four-year educational institutions in the Sacramento and Los Angeles areas. If such legislation is passed, permission to begin operations should be withheld and the kind of institution not decided upon until the extensive survey of the State, provided for in Assembly Bill No. 2273, is completed. This will permit decision concerning higher educational institutions which California needs, and the form of financial support and administrative control which will best minister to those needs."

The State Board of Education approved this motion by a vote of 6 to 0; the Regents of the University of California rejected it by a vote of 7 to 3.

The two boards voted unanimously to approve the following motions by Mr. Collins and Mr. Ehrman, respectively:

Resolved: That if, when the report provided for in Assembly Bill 2273 is completed, it contains a recommendation for the establishment of a four-year college in Sacramento, Los Angeles, or any other place, the Regents of the University of California and the California State Board of Education shall recommend to the Governor that he include in the call for the 1948 session of the Legislature consideration of the subject matter of said report.

and

That the report of the Survey Committee be approved, with the exception of the last paragraph of the "Conclusions" thereof, which paragraph should be amended to read as follows:

"If not inconsistent with the report to be made by the Survey Committee, as provided for by Assembly Bill No. 2273, the Regents of the University of California and the California State Board of Education would in no wise be opposed to the establishment of a four-year college at Sacramento."

The State Board of Education and the Regents of the University of California regret that it has not been possible to reach agreement on all the matters referred to them, and that it is necessary, therefore, to present to you what is, in a sense, a majority and minority report. They hope, nevertheless, that the findings herein presented and the actions taken by the two boards, separately and jointly, may be helpful to you in making your decision on the very important questions of educational development now before you.

Respectfully submitted.

REQUEST FOR UNANIMOUS CONSENT

Senator Brown asked for, and was granted, unanimous consent to have his explanation of the Conference Report concerning Assembly Bill No. 2120 printed in the Journal in 10-point type.

Senator Brown's Explanation of Report of Conference Committee on Assembly Bill No. 2120

May 16, 1947

The conference committee approved the following compromise solution to Assembly Bill No. 2120.

1. Retained the original elementary school formula for apportionment using \$145 foundation program on a 45 cent tax rate. However, for the poor elementary districts a guarantee of \$150 with a 55 cent tax rate is also included. This means that districts with less than \$5.500 behind each child will receive additional state aid. Furthermore, the one-teacher schools will receive \$3,200 instead of \$3,000 for the foundation program from 1 to 16 A.D.A. From 17 to 83 A.D.A. the foundation program is maintained on the same graduated basis as in original Assembly Bill No. 2120. For the state apportionments in 1947-48, the elementary districts will receive the equalization aid according to the above foundation programs and tax rates provided they are levying during this Fiscal Year, 1946-47, a 20 cent tax rate. During the next Fiscal Year, 1947-48, they will have to levy the above-mentioned tax rates to qualify for equalization aid in the Fiscal Year 1948-49. In the meantime during the next fiscal year, consideration can be given to

decide what mandatory tax should be used in future years and such a rate can be adopted by the next Legislature.

The additional money that is needed in order to guarantee the small elementary districts and the poor elementary districts the increased funds will be obtained by the application of the deficit factor. A rough estimate of this factor shows that there possibly will be a 5 percent reduction of the equalization aid that a district will receive. For example, a district which could expect \$110 on the original formula will receive 5 percent of \$20 or \$1 less than \$110 per A.D.A. If assessed values increase there may not be any deficit factor applied next year.

2. Retained the original high school formula using \$175 foundation program with 32 cent tax, but included also the \$200 foundation program with 50 cent tax. With this arrangement districts with less than \$15,000 per A.D.A. on the high school level get additional aid. Here a district is not required to be levying any mandatory tax this year in order to participate next year in equalization aid. However during the next year 1947-48 it must levy the tax rate of 32 cents to participate in the corresponding programs.

3. The small high schools will receive \$2,800 per year maintained in schools of 1-99 A.D.A. with the graduated formula applying to schools above 100 A.D.A. so that \$1,000 per year maintained will be received in districts with 270 A.D.A. and over. This is an increase of \$1,200 for each small four-year high school over the original Assembly Bill No. 2120 but \$800 less than the amendments adopted by the Senate.

There will be sufficient funds on the high school level to support both the programs outlined under paragraphs (2) and (3) without an appreciable deficit factor. Without these two changes there would have been a surplus which would have been apportioned to the high schools under the provisions of Assembly Bill No. 2120.

4. The Dilworth Amendment is retained in the bill, which will require another bill to be drafted two years from now.

MOTION TO PRINT PARTIAL REPORT

Senator Swing moved that the following Partial Report of the Senate Committee on Horse Racing be printed in the Journal, and 300 additional copies printed in 10-point type:

Motion carried.

PARTIAL REPORT OF THE SENATE COMMITTEE ON HORSE RACING

To the Senate of The State of California:

Horse racing and pari-mutuel betting in California was authorized at the election on June 27, 1933 by the adoption of Section 25a to Article IV of the Constitution, which amendment ratified an act of the Legislature regulating horse racing, approved June 5, 1933 (Statutes of 1933, Chapter 769). The purposes for legalizing racing and permitting pari-mutuel betting, as set out in the Legislative Act, are as follows:

“Sec. 4. It is hereby declared that since the purpose of this act is the encouragement of agriculture and the breeding of horses in the State of California, that 3 percent of the first money of every purse won by an animal bred in the State of California shall be paid to the breeder of such animal. * * *

Sec. 13. All fees, commissions and other moneys received by the board shall be paid into the State Treasury immediately upon receipt of the same and credited to a special fund hereby created to be known as the “Fair and Exposition Fund.” * * * for the support of the board and the support of the California State Fair, for the encouragement of county, district or combined county and district agricultural fairs * * * to be apportioned by and expended under the supervision of the State Department of Finance * * * for the benefit of state institutions of learning, providing vocational training in agriculture, animal husbandry and kindred subjects, or for the relief of unemployment within the State of California, and the Legislature shall biennially allocate and apportion such balance to the institutions or organizations aforesaid as, in its judgment, may be proper.”

The argument which induced the voters to vote in favor of the constitutional amendment, and thus approve the legislative act, contained the following statements:

“Proposition No. 3 applies only to horse racing. It provides for the regulation and the safeguarding of existing racing and wagering thereon in California so as to assure the State of California an income from racing and to guarantee to the public an honest and correct return on moneys wagered.

* * * * *

“Let us regulate that which we know exists and will continue so to do. If this amendment is not adopted the State is throwing aside a million dollars annually, a sum which can be used for the support of many institutions. One hundred thousand dollars will go to keep open the 80-year-old California State Fair now threatened to be closed for lack of financial support. Funds from racing will go to the support of citrus fruit fairs and expositions, such as the San Bernardino Orange Show, and similar citrus shows, in which Orange, Riverside, Imperial, Ventura, Tulare, Los Angeles and other counties are vitally interested. County, district, or combined district and county fairs, and state institutions of learning for training our youth in agriculture and animal husbandry will profit from racing receipt funds. Relief of unemployment will be aided from the same funds.

“The State will receive 4 percent on all wagers and also substantial sums from the license fees to be collected. This will amount to more than two million dollars each biennium.”

* * * * *

“It will attract tourists to California, bring employment to thousands and prove a boon to the thoroughbred breeding industry.

* * * * *

“A ‘YES’ vote will bring millions of dollars to the farmers for the purchase of hay and grain; and will save the State Fair and other similar expositions.”

From this, it appears that the primary purpose for permitting racing is the encouragement of agriculture and breeding of horses within California. This is accomplished through the holding of state, agriculture and citrus fairs. Vocational training in agriculture, animal husbandry and kindred subjects, is also made one of the primary purposes.

Whether the aforesaid purposes have been accomplished, as contemplated by the Legislature and the people at the time of legalizing racing, is a proper subject for this committee to consider.

Few legislative changes have been made in the racing laws since it was first enacted, and the experience derived from some 12 years of operation under the act, would seem to require an appraisal of its various provisions as administered by the Racing Board. To aid us, we enlisted the services of Mr. Rolland A Vandegrift, Legislative Auditor. His studies extend over approximately a year and the information which he has provided the committee will be helpful in solving some of the questions confronting it.

The Racing Board consists of three members appointed by the Governor without the usual Senate confirmation. Those who so far have served are as follows:

<i>Member</i>	<i>Appointed by</i>	<i>Month</i>	<i>Year</i>	<i>Month</i>	<i>Year</i>
Carleton F. Burke (Chairman)-----	Rolph and Merriam	August,	1933 to January,	1939

The present California Horse Racing Board is composed of Mr. Loyd Wright, Chairman, Dwight Murphy, and Nion R. Tucker. Mr. Wright is, and for a long time, has been a practicing attorney with offices in the City of Los Angeles.

Mr. Dwight Murphy is the owner of Rancho San Fernando Rey at Santa Barbara, is a breeder of Palomino horses and pure bred cattle and a member of the California Breeders Association and a director of the Santa Barbara Horse Show.

Mr. Nion R. Tucker is the President of the Grand National Livestock Exposition, held annually at the Cow Palace in San Francisco; and is President of the California Hereford Breeders Association.

The present members are men of high standing in their respective communities, and are exerting their efforts in promoting honest and well regulated racing.

POWERS OF THE BOARD

The California Horse Racing Law was drafted and passed by the Legislature before racing was legalized. Its validity depended upon the approval of a constitutional amendment submitted to the voters on June 27, 1933. At the time of its approval, there were no operating race tracks in California and, therefore, the initiation of racing, the licensing of tracks, the fixing of racing dates and the length of racing meets of necessity had to be delegated to the administering board. To effectively establish racing, it was necessary for the Racing Board to have almost unlimited powers in the matter of licensing, fixing of dates and the length of racing meets. These powers were necessarily conferred upon the Racing Board in the earlier stages of establishing of racing, but are not necessarily essential to a satisfactory administration of racing, now that it has been thoroughly established.

We must look to the administration of the act by the various Racing Boards to determine which of the powers originally conferred, if any, should be continued or broadened, and which should be restricted. Generally speaking, the board should have control and power of summary action in regard to those employed to conduct racing, as well as power to supervise and control owners, trainers, jockeys, etc. Many of the

recommendations contained in the recent report of the Racing Board are constructive and should be seriously considered by the Legislature; however, experience has shown that the powers of the Racing Board to arbitrarily fix dates and the number of days of a racing meet should be materially limited and restricted. As now written, the board has arbitrary and plenary power to fix the racing dates of each and all of the tracks, and may do that irrespective of the wishes of the track operators, either individually or collectively. The board may also fix the number of days during which racing may be conducted at any track. This it may do, irrespective of the effect it may have upon successful operation of racing.

In the exercise of these powers, the Racing Board may penalize its enemies and favor its friends. It may destroy one track absolutely, while promoting another.

Since racing has been established in California, large sums have been invested in the plants and tracks at which racing is conducted. It is big business for California and should not be pushed around by an arbitrary commission. The racing dates at each of the tracks should be definitely and permanently established within certain limitations, if the tracks are to successfully plan their racing meets and operations. These dates should not be subject to the whim of the board to annually change or limit them in disregard of the plans and convenience of the tracks.

So far as we know, the present board has never abused any of these powers, but it was in the exercise of these very powers that previous racing board members became so notorious in their conduct that special legislative committees were appointed to investigate their action.

In its report filed on May 14, 1940 (Senate Journal of that date, Page 417), the Senate committee, composed of Senators Metzger, Gordon, Collier, Kenny, and Powers, said:

"Your committee for the investigation of horse racing believes that it has uncovered the basic weakness in the present troubled relationship between horse racing and the State Government.

"This weakness is an adherence to the belief that because horse racing is a 'privilege business' it therefore has no rights, and can be governed at the whim and caprice of the executive.

"The committee is not of the opinion that this error is a new one, or that its occurrence is unique to the present administration. However, it is a persistent fallacy, and has produced more picturesque, and serious manifestations in the present administration than it has at any time in the past. If not checked, it will force a break-down in horse racing, and a serious loss of revenue to the State.

"The ultimate recommendations of this committee therefore will be directed to correcting this fundamental error, and restoring confidence, honor and good will in the relationship of race-tracks and horsemen, and those who would govern them.

"Out of the belief that horse-racing is a privilege, and as such can be dealt with arbitrarily have come the following evil administrative practices.

1. *Campaign contributions.* Since it was felt that race-tracks had no rights except those conferred upon them by grace, the belief has become widespread that a race-track proprietor who failed to

contribute handsomely to the successful candidate for Governor would forsooth suffer at the hands of the Governor's Racing Commission.

2. *Official corruption.* With this dangerous doctrine abroad, actual or attempted corruption was bound to be the next development. The final report of this committee will reveal offers of special privileges to favored race-tracks made by self-styled campaign contributors, and members of the present Governor's official family. These offers were made upon the condition that large sums of money be paid.
3. *Arbitrary rule.* Even honest men are swayed by the heady effects of exercising absolute power over a defenseless "privilege business." Sweeping rulings, if made without regard for, or knowledge of the fundamental rights of the industry affected, eventually will so undermine that business that it will be destroyed. Horse racing is still on trial in California, and its passing would bring a severe loss of revenue to the State.
4. *Invasion of constitutional authority.* It is the province of the Legislature, not the Executive, to raise the revenues of the State, and order their expenditure by budget appropriation. However, during the past year the Racing Commission at the request of the present Governor, has arbitrarily insisted that the various tracks donate the proceeds of certain racing days to the general funds of the State. The purpose back of this move may be entirely laudable but purity of motive can never justify a deed that is evil in effect.

"This move has set the stage for imposition of similar 'extra-legislative' taxes upon other 'privilege' business—liquor, fishing, et cetera. Confidence of those who would invest in such businesses is destroyed since they are deprived of the safeguard of the constitutional provision that the Legislature alone may impose taxes.

Mr. Vandegrift, in his report on the same subject, says:

"Various conditions have been imposed upon which licenses to racing associations were granted. The board has exercised the power given it in Section 9 of Chapter 769 33: 'All licenses * * * shall contain such conditions as shall be deemed by said board necessary or desirable for the purposes of this act.'"

"The condition that required the racing association to make a donation to a state agency designated by the board is one of the conditions imposed by the board under this power.

"Several other conditions imposed by the Horse Racing Board have been decidedly irregular for a State Administrative Board. One was the requirement as a condition of a license for racing at Santa Anita on March 31, 1941, that \$5,000 of the profits for that day be paid to the parents of a jockey killed at Agua Caliente. The amount was paid. The Commissioner of Internal Revenue and the Franchise Tax Commissioner both granted exemption of the amount from the net income on which taxes were based.

"Rule 371 of the Rules of Racing as promulgated on July 7, 1939 provided for the establishment of a 'Board of Relief.' Rule 371 is quoted below as being self-explanatory.

371. All moneys imposed as penalties, except such fines as may be imposed on associations, shall be collected by the clerk of the course, and shall be paid over directly by him within 10 days after the close of each race meeting, to a Board of Relief which is hereby constituted, the personnel of which shall be named annually by the California Horse Racing Board. The money that comes into the possession of the said Board of Relief, shall be used as a fund to aid trainers, jockeys, stable attendants, and others, who become ill or injured in the performance of their duties on the tracks of California. Authority is hereby granted the said Board of Relief to accept contributions to this fund.

"An extension of five days to the meet at Del Mar was granted by the Horse Racing Board on August 23, 1941. The extension was conditioned upon the shipping of certain horses to Sacramento, and chartering a plane and flying the jockeys to Sacramento for the running of the Governor's Handicap at the State Fair. Further, that the Del Mar Turf Club, commencing with August 23, 1941, increase the money they have been paying to the horsemen for insurance from \$0.75 per mount to \$1.50 per mount, and that the net proceeds from the conduct of racing on Tuesday, September 2d, be donated to the Board of Relief of the California Horse Racing Board.

"At the time when the Golden Gate Turf Club was in financial difficulties, early in 1941, the California Jockey Club advanced the Golden Gate Turf Club \$25,000. To quote the request for allowance of the amount as a bad debt to the Franchise Tax Commission, 'The California Horse Racing Board for the good of horse racing in the State of California requested the California Jockey Club to advance the sum of \$25,000 for the good of the cause'. The California Jockey Club took a \$22,000 loss as a result of the advance."

An Assembly committee made a rather careful study of the racing laws and of the way they were being administered by the Racing Board. The report points out another administrative weakness (1937 Assembly Journal, page 1607). That committee says:

"In the enactment of the California Horse Racing Law, the Legislature provided for a racing board or commission, to consist of three members. It was undoubtedly the legislative intent that the personnel of this board should consist of men who had some knowledge, training and experience, that could be applied in the administering of the provisions of the act. It was also the legislative intent that any official acts of the board should consist of the independent thought and action of its three constituents.

"To intrust the enforcement of the provisions of this or any other act to men who have no knowledge of the subject involved, is to defeat the purposes of the law. To allow a commission to delegate to

one of its members, the ultimate 'say' in the making of decisions, is to violate the legislative intent in creating such commission.

"With these self-evident truths in mind, the committee was, to put it mildly, surprised to ascertain that in many instances what probably appeared to be the official action of the three members of the board was in effect the conclusion of its chairman, and that of the three acting members, at least one thereof, freely and frankly admitted that he had neither knowledge, training, or experience that qualified him to sit upon the board, and that his interest in the subject of the breeding of horses was practically nil."

It is easy to see how a forceful and aggressive chairman might influence and completely dominate the Racing Board. As we have seen that influence has not always been exercised in favor of fairness and in the interest of good racing. If arbitrarily used for penalizing purposes, it would eventually lead to corruption and to possible destruction of racing in California.

So long as the Racing Board has power without restriction to license additional tracks, and to arbitrarily fix the number of racing days at each track, it could very easily, by reducing the number of days and multiplying the number of tracks, soon bring racing to such a low level that it would not only fail in its purposes, but become a disgrace to the State.

At the time racing was legalized, California had been out of the game for more than 20 years and we had no means of knowing just where tracks might be established, nor did we know the character of meets that would be most conducive of good racing. For these reasons, it was necessary to leave these questions largely to the first Racing Board authorized by the act. Fortunately, this board was composed of men interested in breeding, and in producing the very best quality of racing for California, and that board set up the racing schedule on that basis.

Racing is now well established. We know the number of days and the seasons that will produce the best results. For this reason, if for no other, racing should be stabilized so each track may plan not only for its immediate schedule but for future meets as well. By so doing, we will give security to the licensee, remove from the Racing Board the temptations to arbitrarily cut dates, or impose unreasonable obligations as a condition to granting dates.

If racing is to continue on a high plane and reflect credit in California, this stability and security is absolutely necessary.

Racing in California and the resulting benefits to agriculture and to breeders has developed into big business, and it now includes both running and harness racing, and has become one of California's chief sources of revenue.

In view of the amount of tax derived directly and indirectly from racing, it would seem to us that a full time racing board might perhaps be advantageous. Under the present conditions, the board seldom meets more than once a month, and therefore most of the administration is left to the chairman or to the secretary or to other employees. This is contrary to the spirit of the law, yet we can hardly expect an unpaid commission to devote very much time to the regulation of a hazardous business or give their personal attention to the administration of the act.

We are in accord with the recommendations of the Assembly committee that members of the Racing Board should have knowledge, training or experience in racing itself, or in the agricultural program which is sponsored by racing and, therefore, members of the board should be appointed from the various groups who are interested in and benefited by racing, with the advice and consent of the Senate.

CHARITY DAYS

In 1941, the Legislature amended the law so as to permit charity day racing. In drafting the act, however, the Legislature failed to take into consideration the federal revenue law defining charitable purposes and as a result, the Department of Internal Revenue has recently handed down a decision that all of these funds are taxable. This ruling, if permitted to remain in effect, will practically destroy the purposes for which charity is conducted. Senate Bill No. 1174 has been put into form agreeable to the tax expert attorneys.

At the hearing of your committee in Los Angeles, Mr. Neil Petree, President of the Hollywood Turf Club Associated Charities, Inc., and Mr. Peter G. Winnett, President of Santa Anita Foundation, a nonprofit corporation, organized for the purpose of disbursing charity funds, impressed upon the committee the necessity of continuing charity day racing as a part of the State's racing program.

Mr. William B. Hornblower, President of the California Jockey Club, Inc., operating Bay Meadows, made a strong appeal in behalf of charity racing for the northern part of the State.

Concerning these charity days, Mr. Floyd Maxwell, Chairman Los Angeles Newspaper Publishers Association, said to the committee:

"We realize the ability and the splendid work that has been done by the members of these charity foundations of the two race tracks in this area, Santa Anita and Hollywood. We know the qualifications of the men who are on those boards, and my publishers wish to express to you our thorough confidence in that manner of handling these charity funds.

* * * * *

"During the past year I have worked on both the Community Chest and the Red Cross. I know that our problem is becoming increasingly difficult in this community to raise our quota to the charity requirements that are going to be placed on us, placed on us at present, and will be placed on us in the future."

The charity, taken care of with the funds derived from charity day racing, is so extensive that it is not necessary to insert a detailed statement of those benefited, but it is sufficient to say that this committee was thoroughly convinced that the purposes for which these charity days are operated are not only laudable but essential to the welfare of the State. The organizations that handle these funds are not only above criticism, but above suspicion, and were it not for this money being raised in this manner and dispersed by these nonprofit organizations, suffering and hardships would be far more prevalent than it is today. These organizations relieve the Welfare Department of the State of California of many of its duties and obligations and provide aid for many needy people beyond the reach of that department, and in our opinion this practice should be continued.

BENEFITS DERIVED FROM RACING

Benefits derived from racing are both direct and indirect. The direct benefits are in taxes. Between 1933 and June 6, 1946, the major tracks associations paid taxes as follows:

To cities -----	\$603,863 15
To counties -----	645,667 39
To the State-----	48,953,463 60
To the Federal Government-----	13,930,634 26
<hr/>	
Total -----	\$64,133,628 40

This does not include income taxes paid by the various officers and employees of the various racing associations. We have no way of determining just what this amounts to, but we know that it is substantial.

As we hereinbefore pointed out, the primary purposes for legalized racing were to encourage agriculture and the breeding of horses within this State. This is accomplished through the maintenance of fairs and expositions throughout the State, and providing institutions of learning in which agriculture, animal husbandry and kindred subjects shall be taught. The amount of tax directly imposed upon racing, i.e., the fees and the "take," should be adequate to generously meet the costs of producing these results and the money derived from this tax on racing, should be devoted solely to the purposes authorized in the act and referred to in the argument to the voters in support of legalized racing.

The amount of tax diverted to the Fair and Exposition Fund which the State has received from license fees and from the "take" since racing returned is reported to be \$53,111,324.44. So far, this money has been reserved for and expended solely for the purposes referred to in the act. During the time of racing there has been diverted into the so-called "second balance" of the Fair and Exposition Fund, a total of \$24,438,957.42. Under the present law, 25 percent of this so-called "second balance" may be expended for improvements at or support of the California Polytechnic School, 33 percent for permanent improvements at or support of the University of California, and the remainder for permanent improvements upon the property of the state, citrus, county or district fair associations for fair purposes in such amounts as may be allocated by executive order of the Director of Finance.

In addition to the moneys which are diverted to the Fair and Exposition Fund, there are other fees derived from horse racing, which have been diverted into the General Fund of the State. The total of these fees derived from horse racing and diverted into the General Fund, is \$8,913,478.76. This money has been mingled with other funds and has been budgeted for general state purposes; that is, for state, county, district and citrus fairs, for the Polytechnic School, for the University of California, and for many other purposes beneficial to the State.

Indirect benefits have resulted to the breeders, to the farmers and to agriculture generally. Mr. Gwynn Wilson, General Manager and Treasurer of the Los Angeles Turf Club, Inc., reflects some of the indirect benefits. He said:

"Under this law racing associations have been able to enlarge and improve their plants, to provide the public with greater facilities, to offer greater rewards to the owners of race horses in the

form of purses and stakes, and to provide ever-increasing revenues to the State of California. Greater purses have increased the value of thoroughbred race horses, which in turn has stimulated the founding of breeding farms. Markets have been provided for farm products, and employment of many thousands of people has been provided, not only at the race tracks, but down through the entire chain of enterprises which have been brought about by the thoroughbred industry. Through the funds and encouragement provided by horse racing, county fairs have developed tremendously, with resulting benefits to people in all walks of life in the State."

Racing provides entertainment and pleasure for a great group of people who have no direct interest in wagering the races, yet attend the racing meets solely because of the entertainment they derive therefrom.

SHOULD THERE BE ADDITIONAL TRACKS?

At the meeting conducted by the committee at Los Angeles on February 28, 1947, we made inquiry of various representative people as to the effect of racing and whether additional tracks should be licensed. Among those to whom we submitted the question was Mr. Ray W. Smith, Executive Vice President, Downtown Businessmen's Association, which association includes approximately some 500 various business organizations within that city; Mr. C. S. Beesmyer, President, Los Angeles Chamber of Commerce; Mr. Floyd Maxwell, Chairman, Los Angeles Newspaper Publishers' Association, and others, and they were unanimous in their conclusion that there should be no additional tracks in the southern part of the State. On behalf of his organization, Mr. Ray W. Smith said:

"The business interests represented by the Downtown Business Men's Association of Los Angeles are very much opposed to the building and operation of any additional race tracks in this area.

"We have reviewed this matter thoroughly from time to time, and have watched the development and conduct of racing in this area carefully. We believe that no good purpose could possibly be served by the building and operation of an additional track. On the contrary, we think it could only be harmful. We believe that the two present magnificent racing plants in this area, Hollywood Park and Santa Anita Park, with their winter and summer racing seasons, adequately fill the racing needs of this community. We believe also that these two establishments not only represent enormous investments, but are conducted by men of character and integrity with a high sense of civic responsibility, and that the inauguration and operation of an additional track might seriously jeopardize the present program.

"Therefore, as we have stated, we are very much opposed to any increase in our race track facilities by the building and operation of an additional track."

Commenting on the same subject, Mr. Floyd Maxwell, Chairman, Los Angeles Newspaper Publishers' Association, said:

"I want to second what Mr. Smith has said here with reference to the additional number of tracks. I feel that in the newspaper

business we are pretty well qualified to know the public pulse, and very definitely the policy of the newspapers in this area which I represent, which includes the Los Angeles Times, The Herald-Express and The Examiner and The Daily News. They have expressed themselves as being opposed to any more race tracks in this area and will continue to do so."

**WHAT LENGTH OF RACING MEETS WILL PRODUCE
THE BEST RESULTS?**

We submitted this question to Mr. Carleton F. Burke, Director of Racing and Presiding Steward, Los Angeles Turf Club, Inc. We did this because Mr. Burke has been identified with racing since its inception in California, and is perhaps one of the leading national authorities on the subject. Mr. Burke's reply to the question addressed to him is as follows:

"What length of race meets will produce best results to the industry? That should be the breeding industry in the State and the various organizations and institutions that are benefited by racing.

"As to a little history, the Racing Act legalizing racing in 1933 set up the maximum number of days which could be licensed by the Racing Board in certain zones, and that was based upon the population of such zones, subject to the discretion of the Racing Board as to the number of days to be allocated.

"The Racing Board, after a thorough study of climatic conditions in the various zones, the probabilities of stimulation of tourist travel, and the encouragement of breeding in the State, set up the schedule of racing days which has been substantially adhered to since that time. Under this schedule, some 50 million dollars have been allocated to the fairs, citrus shows and the agricultural colleges of the State for their support and maintenance. Many millions of dollars have been distributed in purses, stakes, and breeders' awards, the major portion of which went to California owners and breeders; and a great breeding industry, with an estimated investment of \$50,000,000, has been developed. The declared purpose of the Racing Act, "The encouragement of breeding and agriculture," has been substantially met.

"In its allocation of winter dates, the Racing Board gave consideration to the fact that during that period California is in competition with the State of Florida, which has a winter racing program of 120 days. Of course, the winter tourist trade here is one of the most important things that we have.

* * * * *

"It should be borne in mind that any reduction in number of racing days results in reduction in purses, stakes and breeders' awards, and in reduction in state revenue.

"The days here in Hollywood Park and Santa Anita have been cut this year from 55 to 50, and to illustrate the effect that that has had, the reduction of five days, at the present Santa Anita meeting it reduced the purses and stakes and awards to breeders an estimated

\$200,000 and state revenue an estimated \$750,000. Comparable reductions at other tracks would entail similar reductions in purses and stakes and state revenue, according to distributions and pari-mutuel handle.

"I think the deduction at Hollywood Park would amount to about the same deduction as this.

"As to the question of the length of a meeting, I have understood horse racing for some 25 or 30 years. I have been very much interested in the establishment of racing over a period of 25 or 30 years when we didn't have any, and have gone into all the angles and have been interested here for many years in the sports program of the Chamber of Commerce which is a great tourist attraction, too. And we have studied the effect on business conditions in Los Angeles and the Chamber of Commerce went into it, as was just expressed here just now. We have proved that it is a wonderful tourist attraction in the winter and brings people who spend lots of money. In the summertime it is also an attraction and attracts an enormous number of tourists who are now larger in number than the winter tourists.

"So I think that you can't put on a first-class race meeting unless you know that you have a sufficient number of days to do it. We have to have big purses and both Hollywood Park and Santa Anita has been a wonderful attraction. Besides the tracks, they put on a show. They don't just ask the people to come there to bet their money. They can come in to see the show and pay their dollar and get their money's worth. I think it is a wonderful attraction from the tourist standpoint, as well as having great recreational value for the people who come here to live.

"I think a reduction in the days would destroy the efforts of these tracks to put on a good show, and that applies to the tracks all over the State."

SENATOR POWERS: You think you have enough tracks?

MR. BURKE: Absolutely.

SENATOR HATFIELD: Mr. Burke, you stated that this year Santa Anita and Hollywood were cut from 55 days each to 50 days?

MR. BURKE: Yes.

SENATOR HATFIELD: In each case the 50 days included the five days of charity?

MR. BURKE: Yes.

SENATOR HATFIELD: You think you should have 55 days of racing in each track?

MR. BURKE: Yes.

SENATOR HATFIELD: Rather than 50?

MR. BURKE: Yes, because when you operate a race meeting, why, you are obligated for a certain amount of money the minute you open those gates. Take, for instance, Santa Anita is obligated for \$5,000,000 when they open the gates for a 55-day meeting. That amounts to over \$100,000 a day. That is the "nut," as they call it, and a whole lot depends on weather conditions as to whether or not that is going to pay out or not. So if you start out with an elaborate purse program, why, you are going to be committed then and you have got

to have a sufficient number of days in order to set up a program that you feel is going to work out.

CHAIRMAN SWING: What effect does the purses have on bringing in the better horses?

MR. BURKE: There is no question but what it brings in the better horses from other sections of the Country, and also encourages local people, local breeders, to breed better horses and local owners to buy better horses.

At the present time there are two major tracks in Los Angeles County. The Legislature heretofore authorized 100 racing days for these two tracks, plus the additional Charity Days. It seems to be the general opinion that 50 regular racing days for the Hollywood Track and for Santa Anita will produce the best results, and that such number of racing days is essential to high class racing. Until recent years, California has been considered only as a winter tourist resort. The installation of the Hollywood Track and the high class of racing conducted at that track has been a powerful influence in also converting the summer months into a tourist season which now compares favorably with the winter months. This has been made possible by the racing meets held at that track. The character of show which is presented for the entertainment of its patrons is a drawing card which induces many people from our neighboring states to spend their summers at our seashores so they may avail themselves of the opportunity to visit the Hollywood Track.

Not only is a reasonable long racing meet necessary, from a strictly racing standpoint, but the length of each meet has a direct bearing upon the amount of tax payable to the State. The State receives 4 percent of the first \$10,000,000 of money handled, 5 percent of the next \$10,000,000, and 6 percent on all over \$20,000,000. The State, therefore, has a definite and direct interest in the extra days, so as to get in the 6 percent bracket. The amount handled at each track of necessity depends largely upon the number of days racing is conducted. The more days of racing, the greater the handle and therefore the greater the benefits to the State.

The Racing Board cut five days from the racing meet recently held at Santa Anita. This resulted in a direct loss to the State, from that meet alone, of \$153,476.22. If five days is cut from the meets at each of the other tracks throughout the year of 1947, the State will, by reason thereof, lose an aggregate of \$1,953,954.46, predicted upon last year's handle. In view of the ever increasing demands upon this fund, the State can ill afford to lose this sum.

The Bay Meadows and Tanforan Race Tracks are in San Mateo County, which is adjacent to the County of San Francisco. These two counties comprise one racing area with an estimated population of 925,000, and are adjacent to the County of Alameda in which the Albany track is situated, which county has an estimated population of 700,000.

The maximum number of racing days authorized for the tracks in the San Mateo area is 80, which, when combined with the racing days authorized for Alameda County, gives the bay area a maximum of 120 regular racing days. This area has a combined estimated population of 1,625,000, whereas the population of Los Angeles County is estimated to be 3,611,000.

The recent action of the Racing Board in granting a license for the operation of the Albany track would indicate that it was the intention of the Racing Board to allocate a greater number of racing days to the bay area than has heretofore been enjoyed by that area.

If a population of less than one-half of Los Angeles County justifies an additional track in that area and the additional days necessary for its operation, then it would seem logical that the tracks in Los Angeles County should at least have the full 100 regular racing days.

The leading businessmen of Los Angeles who appeared before our committee were unanimous in their opinion that a maximum of 100 racing days was necessary if Hollywood and Santa Anita were to continue to carry on the high class racing program and entertainment characteristic of those tracks, and the sentiment was unanimous that these racing days should be allocated equally between these two tracks.

SHOULD THERE BE A CHANGE IN THE PERCENTAGES ALLOWED THE TRACKS?

When the question of legalizing racing was submitted to the people for their approval, they were told that the cost of maintaining tracks and the operation of racing would be met through a pari-mutuel system of wagering. Under this system of wagering, all money bet goes into a pool, from which pool certain percentages are deducted for the benefit of the licensee and other percentages deducted as taxes for the State. The deductions from the pool to the licensee include the percentages set forth in the act, plus the "breakage."

Concededly, there must be enough money allowed the licensee to cover all costs and expenses of conducting proper racing meets. Just what percentage should be allowed the tracks is, more or less, a technical question which can be answered best by those familiar with the cost of operation. For this reason, we submitted the question to Mr. J. F. MacKenzie, Vice President and General Manager of the Hollywood Turf Club. His statement to the committee was as follows:

"I have been asked to address myself to the question, 'Should there be any change in the percentages allowed the tracks or the State.' On behalf of Hollywood Turf Club, Mr. Chairman, I want to say that we are very happy to have this opportunity to present before the committee, facts about racing at Hollywood Park and our view of the place of racing in the economy of the State of California.

"We have given this question very serious consideration and we have come to the conclusion that the best interests of racing and of the State would be served if there were no changes in the percentages now allowed the tracks and the State. We have reached this conclusion, not in terms of our own self interest, but as businessmen operating a large enterprise along sound business lines. We recognize that in the long run what is in the best interest of the State is also in the best interest of racing, and, we have approached this from that point of view.

* * * * *

"At this point I would like to give the committee some picture of our operations in 1946. Last year, we had 50 days of racing, not including five additional days given over to charity. It took us the

first 36 days of this meeting to break even, leaving us only 14 days from which to obtain any earnings to be used for reinvestment, for further improvements or for distribution in dividends. During those 14 days, as always, we faced many hazards such as, weather, earthquake, fire, power failures, epidemics among horses, strikes, and, we have other hazards that very few, if any, businesses have to face. If any of these misfortunes should have befallen us during that 14-day period, our entire earnings for the year might easily have been wiped out.

"In 1944, we had 27 days of racing and it was not until the 20th day that we covered our expenses, leaving only seven days in which to show a profit on our investment.

"Now, 1946 was a good year. We have no assurances that 1947 will be as good. As a matter of fact, we have five fewer racing days. All tracks throughout America are showing a decline in the average amount of money being wagered by those in attendance. Also, statistics show that after World War I there was a sharp decline in business volume of the racing organizations operating at that time. We cannot at this time predict that there will be a repetition of that experience, but, that is the trend. I think the committee should know that we as businessmen are confronted with that possibility and that we have to be prepared to cope with it.

"There is no question but that we have been passing through a period of moderate inflation and easy money, but we have every reason to believe that that period is drawing to a close. The "honey-moon" is over in racing, as it is in many other lines of business.

"As businessmen we try to conduct our affairs in such a way as to get the maximum possible return. We have considered the committee's question from the same point of view and we have endeavored to determine what policy would yield the greatest aggregate revenue for the State, consistent with the maintenance of our high standards of racing. It is our firm judgment that the State would get a greater aggregate income from racing by leaving the percentages as they are now. A reduction in the percentage allowed to our track would force us to curtail our activities to such an extent that we could not possibly attract the volume of business necessary to maintain the past level of the State's revenue.

"A reduction in the percentage allowed to our track would necessitate a revision in the calibre and scope of the operations which we are conducting. I want to emphasize that point for the committee because I know that the quality of racing which we represent is of economic importance to the State of California.

"At Hollywood Park we are operating not just another race track, but, a racing establishment unequaled anywhere in the United States, except at Santa Anita. California racing as conducted at Hollywood Park and Santa Anita is unique in this Country, as is evidenced by the volume of business done and the international reputation which these two racing plants enjoy. Not only are our standards of the conduct of racing higher than at any other racing plant, (and this fact is widely recognized), but we have developed racing from the standpoint of showmanship and entertainment to a point that places us years ahead of any other racing enterprises.

I say this not in order to boast about our own accomplishments, but, to give to the committee the reason for the tremendous interest that racing at these two tracks has aroused throughout the Country. I think the committee should understand that this leadership in racing is bringing into California, thousands upon thousands of people who come not only as visitors and tourists, but many of whom remain here and even establish industries here. As you know, our tourist industry is the second largest industry in Southern California I know of at least one big industrialist who, attracted by the quality of the racing, moved his racing stable to California and is building a large breeding farm and is becoming a resident here.

"I emphasize these things to demonstrate that our type of racing is contributing to the welfare of California and is responsible for great advances in breeding of horses and agriculture in general, which was the purpose behind the Racing Act as originally passed in 1933.

"We cannot continue to operate a racing plant on this scale and this quality if, in addition to the prospect of falling revenue, we must face the possibility of a reduction in the percentages allowed to us by the State.

* * * * *

"We have worked very hard in the last nine years to build up the kind of racing institution which we now have and we are succeeding now not only in keeping California owners from shipping their horses out of the State, but, we are also attracting outstanding horses and stables from other states. If, through a reduction in the percentage allowed us, we are compelled to curtail our activities and reduce the stakes and purses, we will not only cease to be an attraction for outstanding horses from other states, but, we will fail to keep in California the outstanding horses of our own State. If our stakes and purses are not sufficiently attractive to outstanding California owners, they will ship their horses where the opportunities are more attractive, and, once they have decided to ship their horses elsewhere, they are lost to us for the whole meeting.

"During the period of our summer season, there are 13 other tracks in the United States actively competing to attract the same horses away from us. We have now reached a point where the tide is running in our favor and it would be extremely unfortunate not only for our own organization, but, for the State, if that trend were to be interrupted and reversed.

"To summarize, I urge the committee to recommend against a reduction in the percentage allowed the track, for three principal reasons:

1. Because I firmly believe that such a reduction will reduce the aggregate revenue to the State.
2. Because I believe it would be more equitable and sounder to base the percentages on the prospects for the future, rather than on the temporarily inflated experience of the past two years.
3. Because I believe a reduction in the percentages allowed the tracks will inevitably throttle our activities and will have the

effect of impairing one of the finest economic assets which has been developed in California in many years."

We believe the report of Mr. Mackenzie to be an honest and fair statement. It emphasizes the need of a continuation of the present percentages.

Mr. Mackenzie's conclusions are joined in by the operators of all other tracks.

We recommend no change in these rates.

BREAKAGE

Breakage results from the fact that it is not practical to compute to the penny the amount payable on each dollar wagered. Under our law, it is "the odd cents by which the amount payable on each dollar wagered exceeds a multiple of 5 cents." It varies on each pool. In some, it is nothing but it could be as much as 4 cents on each dollar in the pool being split. In the aggregate it amounts to considerable, but the effect on the individual bettor is so small that it is never noticed. In fact, it is negligible.

In this State and in most other states where racing is conducted, the breakage becomes and is a part of the income of the track, and it is one of the sources from which it derives funds to operate the track, provide purses, and pay the usual and ordinary expenses connected with racing. While the breakage has sometimes been referred to as belonging to the bettor, this is a fallacy. The bettor has no more right to the breakage than he has to the percentages deducted from his dollar when he lays down his bet.

Prior to 1941, the break was to 10 cents rather than the nickel, and all the breakage went to the tracks. The Legislature amended the Breakage Act in 1941 and required the pools to be broke to the nickel rather than the dime, thereby cutting the tracks' breakage in half. To offset the loss to the tracks by this change, the Legislature increased the percentage to the tracks 1 percent. This automatically reduced the amount of pools and was more unfavorable to the bettor than when the law permitted the break to the dime.

There has never been any uncertainty as to who was to get the breakage, for in the very law under which racing was legalized, it was set forth in plain print that the breakage should go to the tracks as a part of their income. This was approved by the voters at the election legalizing racing.

In considering the question of breakage, it is our purpose to determine whether this revenue should continue to go to the tracks or whether it should go to the State. It should go into the tracks only in the event it is necessary to enable them to properly operate and produce high class racing.

A careful study of the balance sheets of the various tracks would seem to indicate that if the present percentages are continued, Hollywood and Santa Anita could continue to properly operate without the breakage. This, however, does not appear to be true at the smaller tracks. The Del Mar Track, Bay Meadows, and Tanforan all maintain that without the breakage they will be unable to operate successfully.

Mr. Charles H. Carr, President of Del Mar, said to the committee:

"Breakage, I am addressing myself to this one specific thing without a lot of embellishment. That is the question of taking away breakage. The figures we have supplied you show exactly what will happen to Del Mar if you take away the breakage.

* * * * *

"For instance, in 1937 we had a net profit of \$12,333.73. The breakage was \$41,000. If you took away breakage, we would have been in the red about \$28,000.

"You can come down the line each year and you will find, for instance, in 1938 there was sixty-one thousand odd dollars. The breakage net profit was thirty thousand odd dollars. In 1939 the breakage was fifty-seven thousand odd dollars. The net profit was \$395. If we had had about two extra janitors we would have been in the red. In 1940 we had a breakage of seventy thousand odd dollars. We had a net profit of \$87,000. That gave us a net profit of \$17,000, but if you had taken that breakage away we would have been about \$70,000 in the hole.

"In 1941 we had one hundred twenty-three thousand odd dollars for breakage. We had a net profit of \$125,000, and take away the breakage and we would have had a profit of \$2,000. If we had had one strike or had to raise the wages of the janitors, we would have been in the red again.

"In 1945, two hundred thirteen thousand odd dollars on the breakage, and we had a net profit of \$179,000.

"In 1946, we had \$183,000 in breakage, and we had a profit of \$274,000. We had a jump that year.

* * * * *

"Now, speaking for Del Mar, and Del Mar alone, we don't believe we could operate at all if you took away the breakage. We believe that would break the track.

"I think it sums up the situation in a very few words, and it just comes down to one proposition: With breakage we operate; without it we don't think we can operate."

Mr. Guy M. Standifer, President of Tanforan Company, Ltd., said:

"In view of the fact that the breakage in California has always been construed as a part of the commission accruing to the racing associations, it is our opinion that the breakage should continue to be construed as a part of the race tracks' commission. All tracks such as Tanforan, have less chance to operate on a percentage basis because of our low mutuel handle. This additional three-fourths of 1 percent which the breakage amounts to under the present law, aids us greatly in being able to put on a substantial program of racing, to give consideration to increasing stakes and purses to the horsemen, and, provide a better show for the racing public.

* * * * *

"It is our belief that the track must have approximately 40 days of racing for its successful operation. If you have fewer days you have a shorter time over which to spread the hazards of maintaining your business. Furthermore, the total gross revenue is

lessened with a shorter meeting and we are compelled to curtail our racing program as well as our other operations. We can provide a better show for the public and can do more for the horse men if we have an assured 40 days of racing for our own racing association."

We have been advised of no satisfactory method by which the pools could be broke to a lower multiple than five. Even though this could be done, it would require a complete change in the method of computation in this and all other states. So far as the bettor is concerned the amount involved does not justify the effort.

It is our conclusion that both Hollywood and Santa Anita can probably successfully operate on a schedule of 50 regular racing days without all of the breakage. This does not seem to be true, however, so far as the other tracks are concerned. It seems to us that the smaller tracks, now operating on a 40-day or less schedule, should continue to receive the breakage as a part of their necessary income. The breakage, or at least the major part of it, from Santa Anita and Hollywood, could be diverted to the State as a part of the State's income from this source. This would provide additional income for the State, and could very well be expended in the program for additional training in agriculture, animal husbandry and kindred subjects.

We are not unmindful of the suggestion made by Mr. Mackenzie that a plan might be worked out by which the tracks could increase the pools by the addition of the breakage. Perhaps this could be done, but the benefits derived by the individual bettor would be so small that such plan does not appeal to us. We think the breakage on the first \$20,000,000, or perhaps \$30,000,000, should go to the tracks insofar as they require it for their proper operation, and the balance to the State. The following table illustrates the benefits to the State if this suggestion be adopted:

Track	Pari-mutuel pool	Breakage on over	
		20 million ¹	30 million ¹
Bay Meadows -----	\$37,913,442	\$140,620 50	\$62,120 52
Santa Anita -----	140,686,541	947,389 34	868,889 34
Bay Meadows ^a -----	36,074,830	126,187 42	47,687 42
Hollywood Park -----	125,819,342	830,681 82	752,181 81
Del Mar -----	23,806,005	29,877 14	-----
Totals -----	\$364,300,160	\$2,074,756 22	\$1,730,879 09

¹ Computed at 0.785 the average for all meets in 1945-46 season.

² In lieu of Tanforan calculation.

When your committee embarked upon the investigation assigned it by the resolution creating the committee, it was our purpose to ascertain the facts so as to make a fair and impartial report to the Legislature of and concerning racing within the State, insofar as it affected the various phases relating to the financial questions involved in that subject. The tracks enjoyed the greatest prosperity of all time immediately following the war. The meets held during the Fiscal Year 1945-46 were the most successful of all. The tremendous amount of free money and the pent-up energy encouraged almost everyone not only to visit the tracks but to participate in the wagering on the races.

Since that time, there has been a gradual decline, and the estimates for the 1947-48 season indicate a further falling-off in the pari-mutuel pools.

In the meantime, wages have advanced, cost of operation has materially increased. This cost will not decrease during the immediate future. The 1945-46 season has been referred to as the "honeymoon" racing season of California. Had conditions continued as they were during that season, we would feel inclined to suggest substantial changes in the take; however, in considering what should be done under present conditions, we must not lose sight of the fact that racing now is and will continue to be a source from which the State derives substantial sums in the way of taxes.

The percentages now set up in the law, both for the track and the State, were arrived at by a previous committee of the Legislature after an investigation. While it is highly probable the percentages to the tracks could have been reduced had conditions similar to the "honeymoon" year continued, the present conditions confronting the tracks are fraught with many hazards. It is generally conceded we are going into a moderate financial recession which will materially affect the amount of money handled at the various tracks with no reduction in the cost of operation.

Under Section 19625 of the Business and Professions Code, the license fees in excess of 4 percent are paid into the State's General Fund. During the "honeymoon" season of 1945-46, the State received from this source \$6,172,894.07. The Director of Finance estimates that the State will receive from this source in the 1946-47 season \$5,441,643, and for 1947-48, \$4,012,000, showing a continuous decline in the moneys handled at the tracks and likewise a decrease in the income of the tracks.

The success of racing in California depends largely upon the size of the purses offered, and the kind of show the tracks put on, and any material decrease in the purses or the character of the show will soon be reflected by a decrease in the amount of handle in the pari-mutuel pools, and thereby lessen the amount of tax received from this source. In view of these conditions and the uncertainty of the future, it seems to the committee that it would not be wise at this time to make any change in the percentages either to the State or to the tracks.

There have been various views advanced concerning the disposal of the breakage, but the views hereinbefore expressed seem to indicate that either the breakage, or at least a part of it, must continue to go to the smaller tracks; or else there should be an increase in the percentages allowed the smaller tracks. It seems to us that it would be far better for the tracks to have the breakage rather than increase the percentage.

We are submitting the result of our investigations to the Legislature with the hope that it may be helpful to the members in considering pending legislation dealing with the suggestions referred to herein.

Respectfully,

REQUEST FOR UNANIMOUS CONSENT

Senator Hatfield asked for, and was granted, unanimous consent to have the following opinion of the Legislative Counsel regarding the effect of Senate Bill No. 143 printed in the Journal in 10-point type:

Opinion of Legislative Counsel

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL

SACRAMENTO 2, CALIFORNIA, May 16, 1947

Hon. George J. Hatfield

Senate Chamber

Effect of S.B. 143—#4909

DEAR SENATOR HATFIELD: We have your request for an opinion as to what changes, if any, Senate Bill 143 makes in the existing law respecting forged, raised, or unauthorized checks.

In our opinion the bill, if enacted, would effect a material change in existing law, and would probably be held unconstitutional as impairing the obligation of contracts.

Section 3104 of the Civil Code provides:

“When a signature is forged or made without the authority of the person whose signature it purports to be, it is wholly inoperative, and no right to retain the instrument, or to give a discharge therefor, or to enforce payment thereof against any party thereto, can be acquired through or under such signature, unless the party, against whom it is sought to enforce such right, is precluded from setting up the forgery or want of authority.”

Section 3205 of the same code provides that a negotiable instrument materially altered without the assent of all parties liable thereon is avoided, except as against a party who made, authorized or assented to the alteration, and subsequent endorsers. Said section also authorizes a holder in due course, not a party to the alteration, to enforce payment according to the original tenor of the instrument.

The sections are both a part of the Negotiable Instruments Law, and are restatements of the general rules regarding forgery and alteration of negotiable instruments.

Under existing law, lapse of time does not operate to confer authority to issue checks upon a person who in fact has no authority to execute the instrument for the depositor or to sign his name thereto. The depositor may hold the bank liable in the event of payment by the bank on a forged or unauthorized signature, except that the depositor's claim against the bank may be barred by the statute of limitations (Sec. 340 (3), Code of Civil Procedure) with respect to the payment of any particular check (*Atwell vs. Mercantile Trust Company*, 95 Cal. App. 338).

Under existing statutes, each transaction regarding issuance of a check ordinarily stands by itself in the absence of some special agreement. There might be any number of forgeries of a depositor's name on checks, for example, but the mere fact that there are numerous forgeries, even on checks drawn on the same bank, would not create a presumption that the forger was authorized to sign the depositor's name.

Senate Bill No. 143, however, provides that if a bank pays and charges to the account of its depositor a forged, raised or unauthorized check issued in the name of such depositor, and mails or delivers to said depositor the "voucher representing such payment" (presumably the canceled check) the depositor within sixty days thereof must notify the bank of the forgery, alteration or unauthorized issuance of the instrument. If the depositor fails to so notify the bank, the latter will not be liable for payment of future instruments forged, raised or unauthorized by the same third person.

Said bill thus places upon the depositor the burden of notifying the bank within 60 days after the "voucher representing payment" is mailed or delivered to him, that the check was forged, raised or unauthorized. If the depositor fails to give the notice, he is presumed to have authorized payment by the bank for all future similar forgeries, alterations, and execution of checks without authority.

There is no provision for revocation of such presumed authority by the depositor, and no limitation thereon regarding time or otherwise. Apparently the only method by which the depositor could protect himself in such case would be to close his account.

In regard to all bank accounts existing on the effective date of a statute having the provisions of Senate Bill No. 143, in our opinion there would be an impairment of the obligation of contracts within the meaning of Section 10 (1) of Article I of the United States Constitution.

A bank, upon opening a commercial account with a depositor expressly or impliedly agrees to pay upon the written order of the depositor (4 Cal. Jur. 238, Sec. 123). Senate Bill No. 143, however, would alter this contract very materially, by authorizing the bank, in case of a prior forgery, for example, and inaction on the part of the depositor for sixty days after mailing or delivery to him of the voucher representing such payment, to pay on the order of a forger. This would be true, apparently even though the depositor subsequently served written notice on the bank

ordering said bank to make no future payment on the basis of the forged signature.

Very truly yours,

FRED B. WOOD, Legislative Counsel
By W. L. KILGORE, Deputy

Copy to author of Senate Bill No. 143 pursuant to Joint Rule 34.

The phrase "any water district, the corporate

area of which is included within said authority" and the phrase "each city, the area of which shall be a part of any authority incorporated hereunder", and like phrases, used elsewhere in this act, shall be deemed to mean and refer to any water district or city, the corporate area of which either in whole or in part, is included within such county water authority, but the duties and obligations of such county water authority shall extend only to that part of the corporate area of such water district or city which shall lie within such county water authority. As to any such water district or city, the corporate area of which lies partly within and partly without such county water authority, the word "therein" and the phrase "within such city" and like words and phrases, used elsewhere in this act, shall be deemed to mean and refer to that part of the corporate area of such water district or city which lies within such county water authority. The charges for water supplied by such county water authority to any component public agency, pursuant to its request, shall be and become an obligation of such public agency, irrespective of whether the entire corporate area of such public agency is included within such county water authority, and such authority in administrative and contractual matters shall deal with the chief executive officers and governing bodies and other proper officials of such component public agencies as chosen or constituted under applicable laws governing the respective public agencies."

Amendments read, and adopted.

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA

GOVERNOR'S OFFICE, SACRAMENTO, May 20, 1947

*To the Senate of the State of California
Sacramento, California*

GENTLEMEN: I am transmitting to you herewith a copy of a message with reference to Senate Bill No. 181, entitled, "An act to amend Section 215 of the Revenue and Taxation Code, relating to veterans organizations."

This bill, with my message relative thereto, I (through my Legislative Secretary) delivered to Honorable Burt W. Busch, Member of the Senate, at 8.20 o'clock p.m. on the nineteenth day of May, 1947, at which time your honorable body had adjourned for the day but not for the session.

Respectfully submitted,

EARL WARREN, Governor

Message read, and ordered printed in the Journal.

STATE OF CALIFORNIA
GOVERNOR'S OFFICE, SACRAMENTO, May 19, 1947

*To the Honorable Members of the Senate
State of California, Sacramento, California*

GREETINGS: I am returning herewith, without my signature,

Senate Bill No. 181, entitled: "An act to amend Section 215 of the Revenue and Taxation Code, relating to veterans organizations."

My objections to this bill are as follows:

Two years ago the Legislature adopted, and I signed Assembly Bill No. 502. That bill contained more than one section relating to the welfare exemption from taxation. The Attorney General and the Legislative Counsel then advised me that the section relative to tax exemption for scientific institutions and for the property of veterans organizations was probably unconstitutional. I signed the bill on the theory that the constitutional portion of the bill to carry out the constitutional amendment adopted by the people was valid, and that the unconstitutional provision relative to scientific institutions and the property of veterans organizations was severable.

The present bill would extend the unconstitutional portion of the existing law and I am advised by the legal officers is itself unconstitutional. Furthermore, the language in the bill which would give tax exemptions to any association composed exclusively of the members of veterans organizations would open the door to possible abuses.

Inasmuch as the Attorney General advises me that the present bill is unconstitutional, and because of the abuses possible under the language of the bill, I am returning it without my approval.

Sincerely,

EARL WARREN, Governor

Message read, and ordered printed in the Journal.

Senate Bill No. 181 ordered to unfinished business file.

STATE OF CALIFORNIA
GOVERNOR'S OFFICE, SACRAMENTO, May 20, 1947

*To the Senate of the State of California
Sacramento, California*

GENTLEMEN: I am transmitting to you herewith a copy of a message with reference to Senate Bill No. 1339, entitled, "An act to repeal Chapter 295 of the Statutes of 1945 and Sections 160.5, 223.5, 395.6, and 395.7 and Chapter 4, comprising Sections 560 to 589, inclusive, of Part 2 of Division 2 of the Military and Veterans Code, relating to emergency powers of the Adjutant General and to the California State Guard, reserving claims, rights, benefits, and privileges of members and disciplinary power as to offenses, and providing for the liquidation of property, funds, and affairs of the California State Guard."

This bill, with my message relative thereto, I (through my Legislative Secretary) delivered to Honorable Burt W. Busch, Member of the Senate, at 8:20 o'clock p.m. on the nineteenth day of May, 1947, at which time your honorable body had adjourned for the day but not for the session.

Respectfully submitted,

EARL WARREN, Governor

Message read, and ordered printed in the Journal.

STATE OF CALIFORNIA
GOVERNOR'S OFFICE, SACRAMENTO, May 19, 1947

*To the Honorable Members of the Senate
State of California, Sacramento, California*

GREETINGS: I am returning herewith, without my signature,

Senate Bill No. 1339, entitled: "An act to repeal Chapter 295 of the Statutes of 1945 and Sections 160.5, 223.5, 395.6, and 395.7 and Chapter 4, comprising Sections 560 to 589, inclusive, of Part 2 of Division 2 of the Military and Veterans Code, relating to emergency powers of the Adjutant General and to the California State Guard, reserving claims, rights, benefits, and privileges of members and disciplinary power as to offenses, and providing for the liquidation of property, funds, and affairs of the California State Guard."

My objections to this bill are as follows:

This bill has as its purpose the repeal of those sections of the code providing for a State Guard which was established as a temporary war emergency agency. However, this bill contains an erroneous repeal in that it repeals Chapter 295 of the Statutes of 1945. This chapter has to do with certain sections of the Civil Code, relating to the giving of notice of assignment of accounts receivable. Apparently it was intended to

repeal Chapter 295, Statutes of 1943, which was the California State Guard Act. Inasmuch as there was apparently no intention of repealing the Civil Code sections, and because there are other bills available to repeal the State Guard Act, I am returning this bill without my approval.

Respectfully submitted.

EARL WARREN, Governor

Message read, and ordered printed in the Journal.

CONSIDERATION OF GOVERNOR'S VETO

Senate Bill No. 1339—An act to repeal Chapter 295 of the Statutes of 1945 and Sections 160.5, 223.5, 395.6, and 395.7 and Chapter 4, comprising Sections 560 to 589, inclusive, of Part 2 of Division 2 of the Military and Veterans Code, relating to emergency powers of the Adjutant General and to the California State Guard, reserving claims, rights, benefits, and privileges of members and disciplinary power as to offenses, and providing for the liquidation of property, funds, and affairs of the California State Guard.

Governor's message stating his objections read previously.

The question being: Shall Senate Bill No. 1339 become a law notwithstanding the objections of the Governor?

The roll was called, and the Senate sustained the objections of the Governor by the following vote:

AYES—None.

NOES—Senators Brown, Busch, Collier, Crittenden, Cunningham, DeLap, Deuel, Dillinger, Dilworth, Donnelly, Dorsey, Gordon, Hulse, Jespersen, Judah, Keating, Mayo, McBride, McCormack, O'Gara, Powers, Rich, Salsman, Slater, Swing, Tenney, Ward, Watson, and Williams—29.

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA
GOVERNOR'S OFFICE, SACRAMENTO, May 20, 1947

*To the Senate of the State of California
Sacramento, California*

GENTLEMEN: I am transmitting to you herewith a copy of a message with reference to Senate Bill No. 1068, entitled, "An act to add Section 2141.10 to the Business and Professions Code, relating to post-mortem examinations."

This bill, with my message relative thereto, I (through my Legislative Secretary) delivered to Honorable Burt W. Busch, Member of the Senate, at 8:20 o'clock p.m. on the nineteenth day of May, 1947, at which time your honorable body had adjourned for the day but not for the session.

EARL WARREN, Governor

Message read, and ordered printed in the Journal.

STATE OF CALIFORNIA
GOVERNOR'S OFFICE, SACRAMENTO, May 19, 1947

*To the Honorable Members of the Senate
State of California, Sacramento, California*

GREETINGS: I am returning herewith, without my signature,

Senate Bill No. 1068, entitled: "An act to add Section 2141.10 to the Business and Professions Code, relating to post-mortem examinations."

My objections to this bill are as follows:

It was intended that this bill should restrict the performance of autopsies and post-mortems to physicians and surgeons. It was further intended to permit toxicologists to make analyses of tissue and blood to assist in the determination of the cause of death. I am advised that the bill limits the functions of toxicologists and only authorizes such persons to grind tissue.

Because of the unintended effect of the language used in this bill, I have been requested to veto it by the author and by the Director of Professional and Vocational Standards. The director advises me that the effect of the bill has been called to the attention of representatives of the California Medical Association, who concur in his

request. A representative of the Pharmacy Board has also suggested the advisability of vetoing this bill. It is possible to amend other bills now in the course of passage through the Legislature to accomplish the purpose which was intended in this bill, without at the same time unintentionally circumscribing the legitimate activities of toxicologists.

For these reasons I am returning the bill without my approval.

Respectfully submitted.

EARL WARREN, Governor

Message read, and ordered printed in the Journal.

Senate Bill No. 1068 ordered to the unfinished business file.

This bill, with my message relative thereto, I (through my Legislative Secretary) delivered to Honorable Burt W. Busch, Member of the Senate, at 8:20 o'clock p.m. on the nineteenth day of May, 1947, at which time your honorable body had adjourned for the day but not for the session.

GREETINGS: I am returning herewith, without my signature,

Senate Bill No. 1063, entitled: "An act to amend Section 2450 of the Business and Professions Code, relating to the payment of the annual tax and registration fee for physicians and surgeons, drugless practitioners, chiroprodists and midwives."

My objections to this bill are as follows:

The author of this bill has advised me that it amends a section of the Business and Professions Code also amended by Senate Bill No. 249, by the same author. The two amendments are incompatible and the author has requested that I sign Senate Bill No. 249 and veto this bill.

In accordance with the wishes of the author of this bill, I am returning it without my approval.

Respectfully submitted.

GENTLEMEN: I am transmitting to you herewith a copy of a message with reference to Senate Bill No. 371, entitled, "An act to add Section 899 to the Military and Veterans Code, relating to veterans education."

This bill, with my message relative thereto, I (through my Legislative Secretary) delivered to Honorable Burt W. Busch, Member of the Senate, at 8:20 o'clock p.m. on the nineteenth day of May, 1947, at which time your honorable body had adjourned for the day but not for the session.

STATE OF CALIFORNIA
GOVERNOR'S OFFICE, SACRAMENTO, May 19, 1947

*To the Honorable Members of the Senate
State of California, Sacramento, California*

GREETINGS: I am returning herewith, without my signature,

Senate Bill No. 371, entitled: "An act to add Section 899 to the Military and Veterans Code, relating to veterans education."

My objections to this bill are as follows:

This bill has as its purpose, the addition of a requirement that in order to be eligible for veterans education benefits furnished by the State, the veteran must have served at least 90 days on active duty with the United States armed forces. It contains an exception for a veteran who is discharged due to a service connected disability within such 90-day period.

With the purpose of this bill I am in accord. However, I am advised that the bill contains a serious defect in wording. The bill relates to veterans as defined in Section 800 and Section 980 of the code. Section 800 defines the veteran for the purpose of the farm and home purchase act originally applicable to veterans of World War I. Section 980 is the section defining a veteran for the purpose of the farm and home purchase act applicable to veterans of World War II. Section 870 defines a veteran for the purpose of veteran educational assistance which section is neither referred to nor amended by this bill. Representatives of veterans organizations have asked me to disapprove this bill in order that the purposes of the bill may be included in other bills with the error in draftsmanship corrected in order that there may be no possibility that the bill will not accomplish its purpose.

Sincerely,

EARL WARREN, Governor

Message read, and ordered printed in the Journal.

MESSAGES FROM THE ASSEMBLY

ASSEMBLY, CALIFORNIA LEGISLATURE

STATE CAPITOL, SACRAMENTO 14, CALIFORNIA, May 22, 1947

Hon. Joseph A. Beck, Secretary of the Senate

Senate Chamber, State Capitol, Sacramento 14, California

DEAR MR. BECK: Will you please return Assembly Bill 1116 to the Assembly for further action.

This bill was passed by the Assembly on May 20, 1947, and transmitted to the Senate on that date.

Sincerely yours,

ARTHUR A. OHNIMUS

MOTION TO WITHDRAW ASSEMBLY BILL NO. 1116 FROM COMMITTEE, AND RETURN TO THE ASSEMBLY

Senator Powers moved that Assembly Bill No. 1116 be withdrawn from Committee on Local Government, and returned to the Assembly, pursuant to its request.

Motion carried.

REQUEST FOR UNANIMOUS CONSENT

Senator McBride asked for, and was granted, unanimous consent to have the following statement printed in the Journal in 10-point type:

**Statement by Senator McBride, Chairman, Joint Interim Committee
on Insurance Regulation**

During the past two and one-half years the insurance business of the State and the Joint Interim Legislative Committee on Insurance Regulation have continually studied the problems created by the decision of the Supreme Court of the United States which held that insurance was interstate commerce and subject to federal regulation. Congress by the passage of Public Law 15 permitted the states to solve their rating problems on a state basis if they so desired and so retain local control of the important business of insurance.

All groups affected by the proposed legislation fully realized the problem and agreed that state legislation was desirable, but due to honest differences of opinion as to the means and method of solution it appeared to be impossible to reconcile the differences between the various groups.

I have always refused to believe that it would be impossible for the great business of insurance and the agents, brokers and producing groups who are such an essential part of the business to agree on a bill which would be fair to all types of carriers, to the producing groups and which would protect the public interest. I am, therefore, grateful beyond expression to know that a bill has been agreed upon which the Insurance Commissioner believes adequately protects the public interest and which meets in a general way with the approval of the industry for use in California in the light of California conditions.

In thanking all groups and their representatives I want to emphasize that the result accomplished was obtained solely because of the willingness of all groups to put aside individual preferences and pride of authorship in the interest of the business as a whole and no one should assume that the decision to scrap all prior bills and write an entirely new bill represents a defeat for any particular group. The producing groups and the California group agreed to accept any workable bill that did not do violence to their philosophy of regulation. The bill as drawn is satisfactory to them and in appreciation of their cooperation it is only fair to acknowledge their willingness to work with the committee, the Insurance Department and those of the insurance business who did not see eye to eye with them in working out a common problem.

It would have been most unfortunate if after all the time and effort expended no legislation could be passed. It is good for all concerned to know that their efforts have brought accomplishment. We have a good and satisfactory bill which pleases our committee, but our great satisfaction is in knowing that here in California competitive foes can sit down and work out their problems in the best American tradition.

Sec. 98.8. The board may provide for the recruitment and placement of farm labor as and when needed to supplement existing farm labor supplies in order to prevent an unreasonable waste of agricultural wealth and to maintain with reasonable certainty the maximum production of agricultural products in this State.

Sec. 98.9. The board may cooperate or contract with public agencies of the State or the Federal Government in connection with the recruitment and placement of farm workers on farms in this State, but all public services rendered in this State in connection with the actual placement and recruitment of farm labor shall be subject to the over-all control and management of the division.

Sec. 98.10. The chief of the division may coordinate the activities of the division under this act with the activities of private farm labor employment agencies whenever requested to do so by any such agency or agencies and may cooperate with any private agencies in the accomplishment of any of the purposes enumerated in this article.

Sec. 98.11. The division shall conduct agricultural research in relation to farm labor requirements, the availability of farm workers, and in relation to qualification and training of farm labor; and generally by the dissemination of information assist in securing agricultural workers who are best adapted to the work to be performed. Sec. 98.12. The chief of the division may procure and maintain regular and temporary offices in such parts of the State as to him appear necessary or convenient in order to effectuate the purposes of this article, and with the consent of the board divide the State into two or more regions and provide for the supervision of each such region by an administrative supervisor. The chief of the Division of Farm Labor Placement is hereby empowered to do such other acts or things as may be necessary and incidental to the full discharge of the duties expressly conferred or imposed upon him.

Sec. 3. In respect to any office filled by appointment hereunder by the Governor with the advice and consent of the Senate, if an appointment is made while the Senate is not in session, the person appointed shall immediately undertake the performance of his duties and his name shall be submitted to the Senate for confirmation when the Senate is next in session, whether at a regular or extraordinary session, or the reconvening of a recessed session; but the appointee can hold the office until the adjournment or the fifteenth legislative day of such next session, whichever first occurs, unless prior thereto his appointment is confirmed by the Senate.

Sec. 4. There is hereby appropriated from the Department of Employment Contingent Fund the sum of ----- dollars (\$-----), or so much thereof as may be necessary for the support of the Division of Farm Labor Placement during the 1947-1948 Fiscal Year; provided, however, that no expenditure for administration shall be made from the money made available herein as a substitution for a grant of federal funds, or for any portion thereof, which would otherwise be available to the Department of Employment for such purposes."

This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution, and shall, therefore, go into immediate effect. The facts constituting such necessity are as follows:

At the present time there is a very small total acreage of the Russian thistle, a host plant of beet leafhopper, in the West San Joaquin Valley, probably a total of 20,000 acres against 250,000 acres last year. This amount of Russian thistle is unusually low, making it very easy at this time to control for effective reduction. A year of this character does not occur more than once in seven and it is therefore particularly important to take full advantage of it. To do so, Russian thistle control this year should commence as early as possible and preferably about June 1st. Furthermore, the control of Russian thistle during its early stages of growth is far less difficult and costly than in later stages. Therefore, it is essential that funds be made available immediately instead of in the usual manner."

Article 2. Tax on Distributors

25826. For the privilege of distributing cigarettes, a tax is hereby imposed upon every distributor at the rate of \$0.001 for the distribution after 4 o'clock a.m. on October 1, 1947, of each cigarette weighing not more than three pounds per thousand and at the rate of \$0.002 for the distribution after 4 o'clock a.m. on October 1, 1947, of each cigarette weighing over three pounds per thousand.

25827. Every distributor maintaining a place of business in this State and selling or accepting orders for cigarettes with respect to the sale of which the tax imposed by Section 25826 is inapplicable, shall at the time of making the sale or accepting the order, or if the distribution of the cigarettes is not then taxable hereunder at the time the distribution becomes taxable, collect the tax from the purchaser and give to the purchaser a receipt therefor in the manner and form prescribed by the board.

25828. Unless the contrary is established, it shall be presumed that all cigarettes manufactured in this State, or transported to this State and no longer in the possession of the distributor, have been distributed.

Article 3. Only One Distribution Taxed

25841. Any cigarette with respect to which a tax has once been imposed under Article 1 or Article 2 of this chapter shall not be subject upon a subsequent distribution to the tax imposed under Article 2 of this chapter.

CHAPTER 3. LICENSES, BONDS AND REGISTRATION**Article 1. Licenses and Bonds**

25851. Every person desiring to engage in the sale of cigarettes as a distributor, except a person who desires merely to sell or accept orders for cigarettes which are to be transported from a point outside this State to a consumer within this State, shall file with the board an application, in such form as the board may prescribe, for a distributor's license. The application shall be accompanied by a license fee of ten dollars (\$10) payable to the board.

25852. Before granting a license qualifying a person as a distributor, the board shall require the person to file with it, in such form as it prescribes, a bond executed by the person, as principal, and a corporation such as is mentioned in Section 1056 of the Code of Civil Procedure, as surety, payable to the board and conditioned upon the faithful performance of all obligations of the person arising out of this part. The bond shall be executed in a sum equal to twice the estimated monthly amount required to be paid hereunder by the distributor. The amount of the bond shall be increased or decreased at any time, as may be required, and shall be ascertained in such manner as the board may determine.

25853. In lieu of a bond, under such conditions as the board may prescribe, a distributor may deposit with the board lawful money of the United States in an amount equal to the amount of the bond required of him, or he may deposit bonds or other obligations of the United States or of the State of California of a market value not

less than that amount. The board may sell at public sale if it becomes necessary so to do in order to recover any amount due under this part. Notice of the sale may be served upon the person who deposited the security personally or by mail in the manner prescribed for service of notice of a deficiency determination. Security in the form of a bearer bond issued by the United States or the State of California which has a prevailing market price may, however, be sold by the board at private sale at a price not lower than the prevailing market price thereof. Upon any sale, any surplus above the amount due shall be returned to the person who deposited the security.

25854. On receipt of an application and license fee and after the deposit of such security as may be required pursuant to Section 25852, the board shall issue a distributor's license to the applicant. The license is not transferable and is valid until canceled or revoked.

25855. Whenever any distributor fails to comply with any provision of this part or any rule or regulation of the board prescribed and adopted under this part, the board upon hearing, after giving the distributor at least 10 days' notice in writing specifying the time and place of hearing and requiring him to show cause why his license should not be revoked, may revoke the license held by him. The notice may be served personally or by mail in the manner prescribed for service of notice of a deficiency determination. The board shall not issue a new license to a distributor whose license has been revoked unless it is satisfied that he will comply with the provisions of this part and the rules and regulations of the board.

25856. Any person required to obtain a license as a distributor under this chapter who engages in business as a distributor without a license or after a license has been canceled or revoked, and each officer of any corporation which so engages in business, is guilty of a misdemeanor.

Article 2. Registration

25866. Every distributor, except one to whom a license is issued under Article 1 of this chapter, required under Section 25827 to collect the tax imposed under this part from a purchaser shall register with the board and give the names and addresses of all agents operating in this State, the location of all distribution or sales houses or offices or other places of business in this State, and such other information as the board may require.

CHAPTER 4. DETERMINATIONS

Article 1. Reports and Payments

25881. The tax imposed by this part is due and payable monthly on or before the fifteenth day of the month following each calendar month in which a distribution of cigarettes occurs.

25882. On or before the fifteenth day of each month, every distributor shall file on forms prescribed by the board a report showing the number of cigarettes distributed during the preceding calendar month by the distributor in this State and such other information as the board may require to carry out the purposes of this part.

25883. The distributor shall accompany each report with a remittance payable to the board for the amount of tax due.

25884. The board for good cause may extend for not to exceed 15 days the time for making any report or paying any amount of tax required under this part. The extension may be granted at any time provided a request therefor is filed with the board within or prior to the period for which the extension may be granted.

Any distributor to whom an extension is granted shall pay, in addition to the amount of tax, interest at the rate of one-half of 1 percent per month, or fraction thereof, from the date on which the amount of tax would have been due without the extension to the date of payment.

Article 2. Deficiency Determinations

25901. If the board is dissatisfied with the report filed, it may compute and determine the amount to be paid upon the basis of any information available to it. One or more deficiency determinations may be made of the amount of tax due for one or for more than one month.

25902. The amount of the determination, exclusive of penalties, shall bear interest at the rate of one-half of 1 percent per month, or fraction thereof, from the fifteenth day after the close of the month for which the amount of the tax, or any portion thereof, should have been reported until the date of payment.

25903. In making a determination the board may offset overpayments for a month or months against underpayments for another month or months and against the interest and penalties on the underpayments.

25904. If any part of the deficiency for which a deficiency determination is made is due to negligence or intentional disregard of this part or the rules and regulations adopted under this part, a penalty of 10 percent of the amount of the determination shall be added thereto.

25905. If any part of the deficiency for which a deficiency determination is made is due to fraud or an intent to evade this part or the rules and regulations adopted

under this part, a penalty of 25 percent of the amount of the determination shall be added thereto.

25906. The board shall give the distributor written notice of its determination. The notice may be served personally or by mail; if by mail, service shall be made pursuant to Section 1043 of the Code of Civil Procedure and shall be addressed to the distributor at his address as it appears in the records of the board, but the service shall be deemed complete at the time of the deposit of the notice in the mail without extension of time on account of the distance between the place of deposit and the place of address.

25907. Except in the case of fraud, intent to evade the tax, or failure to make a report, every notice of a deficiency determination shall be given within three years after the date when the amount should have been reported.

Article 3. Determinations if No Report Made

25921. If any distributor fails to make a report, the board shall make an estimate of the number of cigarettes distributed by him. The estimate shall be made for the month or months in respect to which the distributor failed to make a report and shall be based upon any information available to the board. Upon the basis of this estimate the board shall compute and determine the amount required to be paid to the State, adding to the sum thus fixed a penalty equal to 10 percent thereof. One or more determinations may be made for one or for more than one month.

25922. In making a determination the board may offset overpayments for a month or months against underpayments for another month or months and against interest and penalties on the underpayments.

25923. The amount of the determination, exclusive of penalties, shall bear interest at the rate of one-half of 1 percent per month, or fraction thereof, from the fifteenth day after the close of the month for which the amount, or any portion thereof, should have been reported until the date of payment.

25924. If the failure of a distributor to file a report is due to fraud or an intent to evade the tax, a penalty of 25 percent of the amount required to be paid by the distributor, exclusive of penalties, shall be added thereto in addition to the 10 percent penalty provided in Section 25921.

25925. Promptly after making its determination the board shall give to the distributor written notice of its estimate and determination, the notice to be served personally or by mail in the manner prescribed for service of notice of a deficiency determination.

Article 4. Jeopardy Determinations

25941. If the board believes that the collection of any amount of tax imposed under this part will be jeopardized by delay, it shall thereupon make a determination of the amount of tax, noting that fact upon the determination. The amount determined is immediately due and payable.

25942. If the amount of the tax, interest, and penalty specified in the jeopardy determination is not paid within 10 days after service upon the distributor of notice of the determination, the determination becomes final, unless a petition for redetermination is filed within the 10 days, and the delinquency penalty and interest provided in Article 6 of this chapter shall attach to the amount specified.

25943. The distributor against whom a jeopardy determination is made may petition for the redetermination thereof pursuant to Article 5 of this chapter. He shall, however, file the petition for redetermination with the board within 10 days after the service upon him of notice of the determination. The distributor shall at the time of filing the petition for redetermination deposit with the board such security as it may deem necessary to insure compliance with this part. The security may be sold by the board in the manner prescribed by Section 25853.

Article 5. Redeterminations

25961. Any distributor against whom a determination is made under Article 2 or 3 of this chapter may petition for a redetermination within 15 days after service upon the distributor of notice thereof. If a petition for redetermination is not filed within the 15-day period, the determination becomes final at the expiration of the period.

25962. If a petition for redetermination is filed within the 15-day period, the board shall reconsider the determination and, if the distributor has so requested in his petition, shall grant him an oral hearing and shall give him 10 days' notice of the time and place of the hearing. The board may continue the hearing from time to time as may be necessary.

25963. The order or decision of the board upon a petition for redetermination becomes final 15 days after mailing of notice thereof.

25964. All determinations made by the board under Article 2 or 3 of this chapter are due and payable at the time they become final. If they are not paid when due and payable, a penalty of 10 percent of the amount of the determination, exclusive of interest and penalties, shall be added thereto.

25965. Any notice required by this article shall be served personally or by mail in the manner prescribed for service of notice of a deficiency determination.

Article 6. Interest and Penalties

25981. Any distributor who fails to pay any tax, except taxes determined by the board under Article 2 or 3 of this chapter, within the time required shall pay a penalty of 10 percent of the amount of the tax, in addition to the tax, plus interest at the rate of one-half of 1 percent per month, or fraction thereof, from the date on which the tax became due and payable until the date of payment.

CHAPTER 5. COLLECTION OF TAX

Article 1. Suit for Tax

26031. At any time within three years after any amount of tax becomes due and payable and at any time within three years after the last recording of a certificate under Section 26062, the board may transmit notice of the delinquency to the Attorney General who shall at once proceed by appropriate legal action to collect all sums due the State.

26032. In the action a writ of attachment may issue, and no bond or affidavit previous to the issuing of the attachment is required.

26033. In the action a certificate by the board showing the delinquency shall be prima facie evidence of the levy of the tax, of the delinquency of the amount of tax, interest, and penalty set forth, and of compliance by the board with all provisions of this part in relation to the computation and levy of the tax.

Article 2. Priority and Lien of Tax

26061. The amounts required to be paid by any person under this part together with interest and penalties shall be satisfied first in any of the following cases:

- (a) Whenever the person is insolvent.
- (b) Whenever the person makes a voluntary assignment of his assets.
- (c) Whenever the estate of the person in the hands of executors, administrators, or heirs is insufficient to pay all the debts due from the deceased.
- (d) Whenever the estate and effects of an absconding, concealed, or absent person required to pay any amount under this part are levied upon by process of law.

This section does not give the State a preference over any recorded lien which attached prior to the date when the amounts required to be paid became a lien.

The preference given to the State by this section shall be subordinate to the preferences given to claims for personal services by Sections 1204 and 1206 of the Code of Civil Procedure.

26062. If any amount required to be paid to the State under this part is not paid when due, the board may within three years after the amount is due file for record in the office of any county recorder a certificate specifying the amount, interest, and penalty due, the name and address as it appears on the records of the board of the person liable for the same, and the fact that the board has complied with all provisions of this part in the determination of the amount required to be paid. From the time of the filing for record, the amount required to be paid together with interest and penalty constitutes a lien upon all real property in the county owned by the person or afterwards and before the lien expires acquired by him. The lien has the force, effect, and priority of a judgment lien and shall continue for five years from the time of the filing of the certificate unless sooner released or otherwise discharged. The lien may, within five years from the date of the filing of the certificate or within five years from the date of the last extension of the lien in the manner herein provided, be extended by filing for record a new certificate in the office of the county recorder of any county and from the time of such filing the lien shall be extended to the real property in such county for five years unless sooner released or otherwise discharged.

26063. The board may at any time release all or any portion of the property subject to any lien provided for in this part from the lien or subordinate the lien to other liens and encumbrances if it determines that the amount, interest, and penalties are sufficiently secured by a lien on other property or that the release or subordination of the lien will not jeopardize the collection of the amount, interest, and penalties.

26064. A certificate by the board to the effect that any property has been released from the lien or that the lien has been subordinated to other liens and encumbrances shall be conclusive evidence that the property has been released or that the lien has been subordinated as provided in the certificate.

Article 3. Warrant for Collection of Tax

26091. At any time within three years after any person is delinquent in the payment of any amount herein required to be paid, or within three years after the last recording of a certificate under Section 26062, the board or its authorized representative may issue a warrant for the enforcement of any liens and for the collection of any amount required to be paid to the State under this part. The warrants shall be directed to any sheriff, marshal or constable and shall have the same effect as a writ of execution. The warrant shall be levied and sale made pursuant to it in the same manner and with the same effect as a levy of and a sale pursuant to a writ of execution.

26092. The board shall pay the sheriff, marshal or constable, upon the completion of his services pursuant to a warrant, the same fees, commissions, and expenses for his services as are provided by law for similar services pursuant to a writ of execution. The board, and not the court, shall approve the fees for publication in a newspaper.

26093. The fees, commissions, and expenses are the obligation of the person required to pay any amount under this part and may be collected from him by virtue of the warrant or in any other manner provided in this part for the collection of the tax.

Article 4. Miscellaneous Provisions

26111. The remedies of the State provided for in this chapter are cumulative, and no action taken by the board or Attorney General constitutes an election by the State to pursue any remedy to the exclusion of any other remedy for which provision is made in part.

26112. In all proceedings under this chapter the board may act on behalf of the people of the State of California.

CHAPTER 6. OVERPAYMENTS AND REFUNDS

Article 1. Claim for Refund

26141. If the board determines that any amount not required to be paid under this part has been paid by any person, the board shall set forth in its records and certify to the State Board of Control the amount paid in excess of the amount legally due and the person by whom the excess was paid to the board. If the State Board of Control approves, the excess shall be credited on any amounts then due and payable from the person under this part, and the balance shall be refunded to the person, or his successors, administrators, executors, or assigns.

26142. No credit or refund shall be allowed after three years from the date of overpayment unless a claim therefor is filed with the board within three years from the date of overpayment.

26143. The claim shall be in writing and shall state the specific grounds upon which it is founded.

26144. In the case, however, of a determination by the board that an amount not exceeding twenty-five dollars (\$25) was not required to be paid under this part, the board, without obtaining the approval of the State Board of Control, may credit the amount on any amounts then due and payable under this part from the person by whom the amount was paid and may authorize the person to deduct the balance from any amounts to become due from him under this part.

Article 2. Recovery of Erroneous Refunds

26161. The board may recover any refund or part thereof which is erroneously made and any credit or part thereof which is erroneously allowed in an action brought in a court of competent jurisdiction in the County of Sacramento in the name of the people of the State of California.

26162. The action shall be tried in the County of Sacramento unless the court with the consent of the Attorney General orders a change of place of trial.

26163. The Attorney General shall prosecute the action, and the provisions of the Code of Civil Procedure relating to service of summons, pleadings, proofs, trials, and appeals are applicable to the proceedings.

Article 3. Suit for Refund

26181. No injunction or writ of mandate or other legal or equitable process shall issue in any suit, action, or proceeding in any court against this State or against any officer of the State to prevent or enjoin the collection under this part of any amount of tax or to prevent or enjoin the revocation of any license issued under this part or any other action whereby it is sought to enforce the payment of any amounts required to be paid.

26182. After payment of any amount, the person making the payment may bring an action against the board in a court of competent jurisdiction in the County of Sacramento for the recovery of the amount paid.

26183. No action may be instituted more than one year after the amount required to be paid to the State has been paid. Failure to bring suit within one year constitutes a waiver of any demand against the State on account of alleged overpayments.

26184. If judgment is rendered for the plaintiff, the amount of the judgment shall first be credited on any amounts due from the plaintiff under this part, and the balance of the judgment shall be refunded to the plaintiff. In any judgment, interest shall be allowed at the rate of 6 percent per annum upon the amount found to have been illegally collected from the date of payment of the amount to the date of allowance of credit on account of the judgment or to a date preceding the date of the refund warrant by not more than 30 days, the date to be determined by the board.

26185. A judgment shall not be rendered in favor of the plaintiff in any action brought against the board to recover any amount paid when the action is brought by or in the name of an assignee of the person making the payment or by any person other than the person making the payment.

Article 4. Cancellations

26201. If any amount has been illegally determined, the board shall set forth in its records and certify to the State Board of Control the amount determined in excess of the amount legally due and the person against whom the determination was made. If the State Board of Control approves, it shall authorize the cancellation of the amount upon the records of the board.

CHAPTER 7. ADMINISTRATION

26251. The board shall enforce the provisions of this part and may prescribe, adopt, and enforce rules and regulations relating to the administration and enforcement of this part. The board may prescribe the extent to which any ruling or regulation shall be applied without retroactive effect.

26252. The board may employ accountants, auditors, investigators, assistants, and clerks necessary for the efficient administration of this part and may designate representatives to conduct hearings, prescribe regulations, or perform any other duties imposed by this part or other laws of this State upon the board.

26253. Every distributor, and every person dealing in, transporting, or storing cigarettes in this State shall keep such records, receipts, invoices, and other pertinent papers with respect thereto in such form as the board may require.

26254. The board or its authorized representative may examine the books, papers, records, and equipment of any person dealing in, transporting, or storing cigarettes, and may investigate the character of the disposition which the person makes of the cigarettes in order to ascertain whether all taxes due under this part are being properly reported and paid.

26255. It is unlawful for the board or any person having an administrative duty under this part to make known in any manner whatever the business affairs, operations, or information obtained by an investigation of records and equipment of any person visited or examined in the discharge of official duty, or the amount or source of income, profits, losses, expenditures, or any particular thereof, set forth or disclosed in any report, or to permit any report or copy thereof or any book containing any abstract or particulars thereof to be seen or examined by any person. However, the Governor may, by general or special order, authorize examination of the reports by other state officers, by tax officers of another state, by the Federal Government, if a reciprocal arrangement exists, or by any other person.

Any violation of this section is a misdemeanor and is punishable by a fine not exceeding one thousand dollars (\$1,000), by imprisonment not exceeding one year, or by both in the discretion of the court.

CHAPTER 8. DISPOSITION OF PROCEEDS

26301. All amounts required to be paid to the State under this part shall be paid to the board in the form of remittances payable to the State Board of Equalization of the State of California. The board shall transmit the payments to the State Treasurer to be deposited in the State Treasury to the credit of the Cigarette Tax Fund, which fund is hereby created.

26302. All money deposited in the Cigarette Tax Fund under this part is hereby appropriated as follows:

(a) To pay the refunds authorized in this part;

(b) For expenditure by the board in carrying out the provisions of this part in the Ninety-ninth Fiscal Year, the sum of one hundred fifty thousand dollars (\$150,000), or so much thereof as may be necessary;

(c) To the counties, cities and counties and cities, as provided in this chapter.

26303. One-half of all the moneys in the Cigarette Tax Fund, after the deduction of the amounts required for refunds and expenditures of the board, shall be paid quarterly during each fiscal year to the cities and cities and counties of the State in the proportion that the total population of each city or city and county bears to the total population of all cities and cities and counties in the State, as determined by the Controller. For the purpose of this section the population of each city or city and county is that determined by the last Federal Census. In the case of a city incorporated subsequent to the last census, or in the case of an unincorporated territory being annexed to a city subsequent to the last census, the Controller shall ascertain the population of the city or the annexed territory by multiplying the number of registered electors therein by three. In the case of the consolidation of one city with another subsequent to the last census the population of the consolidated city for the purpose of this section is the aggregate population of the respective cities as determined by the last Federal Census.

The money so paid shall be expended by the cities and cities and counties for any state purpose.

26304. The remaining one-half of such moneys shall be paid quarterly during each fiscal year to the counties and cities and counties of the State in the proportion that the total population of each county or city and county bears to the total population of all counties and cities and counties in the State, as determined by the Controller. For the purpose of this section the population of each county or city and county is that determined by the last Federal Census.

CHAPTER 9. VIOLATIONS

26351. Any person who fails or refuses to file any report required to be made, or who fails or refuses to furnish a supplemental report or other data required by the board, or who renders a false or fraudulent report is guilty of a misdemeanor and subject to a fine of not exceeding five hundred dollars (\$500) for each offense.

26352. Any person required to make, render, sign, or verify any report who makes any false or fraudulent report with intent to defeat or evade the determination required by law to be made is guilty of a misdemeanor. He shall for each offense be fined not less than three hundred dollars (\$300) and not more than five thousand dollars (\$5,000), or be imprisoned for not exceeding one year in the county jail, or be subject to both fine and imprisonment in the discretion of the court.

26353. Any violation of the provisions of this part, except as otherwise provided, is a misdemeanor and is punishable as such.

SEC. 2. This act, inasmuch as it provides for a tax levy shall, under the provisions of Section 1 of Article IV of the Constitution, take effect immediately."

Opinion of Legislative Counsel

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL

SACRAMENTO 2, CALIFORNIA, May 16, 1947

Assembly Bill No. 683

Pay Roll Deductions—#4911

Hon. Jack B. Tenney
Senate Chamber

DEAR SENATOR TENNEY: We have your request of May 15, 1947, asking several questions relative to the pay roll deductions authorized by Assembly Bill No. 683, as amended May 13, 1947.

First Question: Did the placing of the material in Section 1157 of the Government Code when that code was enacted in 1943 work an implied repeal of Sections 1 and 2 of Chapter 250 of the Statutes of 1939 (Deering Act 3725)?

In our opinion, Sections 1 and 2 of Deering Act 3725 were not impliedly repealed by the enactment of Section 1157 of the Government Code. The Deering Act authorizes governing bodies of counties, school districts, municipal corporations, political subdivisions, public corporations and other public agencies to adopt a system of group life,

accident and/or health insurance for the benefit of their employees, and to make pay roll deductions for this purpose, and to pay a portion of such premiums.

Section 1157 merely covers that portion of the Deering Act relating to pay roll deductions, and supersedes the Deering Act only insofar as it relates to such deductions. The other subjects of the Deering Act, the authorization to adopt systems of insurance and to contribute to the employees' premiums, are not covered by the Government Code section and are consequently in no way affected by its adoption.

Second Question: If an implied repeal was not worked as stated in question 1 is an implied repeal of Chapter 250 of the Statutes of 1939 or of Sections 1 and 2 of that act repealed by implication by the enactment of this Assembly Bill 683?

The answer to question one, above, is equally applicable to this question. An implied repeal merely affects those provisions which are in conflict with the later enactment. As to matters not covered by the later enactment, the original law is still effective.

Third Question: If there is not an implied repeal under either questions 1 or 2 above will you please advise as to whether or not Section 4.5 of Chapter 250 of the Statutes of 1939, as amended, which permits public agencies to contribute to the premium of group life and accident and health insurance be construed together so that the public agencies could be held to be authorized to contribute to the cost of an individual's personal automobile insurance?

Section 4.5 of Deering Act 3725, as amended by Chapter 1338 of the Statutes of 1945, provides that the governing bodies may pay not more than one-half of the premium for group life insurance and for group accident and/or health insurance, and medical and or hospital service for the employee. Section 1157 of the Government Code, as amended by Assembly Bill No. 683, authorizes pay roll deductions for the payment of automobile liability insurance. We find no reference in that section to any provision by which a public agency is authorized to contribute to the payment of the premiums. Since Section 1157 merely supersedes the provisions of the Deering Act as to pay roll deductions, there is nothing in that section which would enlarge the power of the public agency, and the public agency may contribute to premiums only as specifically provided in Section 4.5 of the Deering Act.

Fourth Question: With reference to the third question posed does the reference to group accident insurance in Section 4.5 of the act referred to above include insurance against automobile accidents with reference to either an individual person or to personal property including the automobile itself? I ask this especially in view of the fact that the Insurance Code does not define accident insurance, but in Section 106 defines what we usually think of as personal accident insurance as "disability" insurance.

While the Insurance Code does not define accident insurance, it appears to us that the meaning of Section 4.5 is quite definite. The accident insurance referred to quite clearly is for injury to the person of the employee and not to his property.

We doubt if a public agency can in any manner assist an employee by paying any portion of his premium on insurance for his automobile,

unless it were being used in the course of his employment. It appears to us that such payment would clearly constitute a gift of public money.

It is well established as a principle of statutory interpretation, that whenever an act is susceptible of two interpretations, one of which is constitutional and the other unconstitutional, that which is within the Constitution is the one applied.

We are consequently of the opinion that neither Section 4.5 of the act nor Section 1157 of the Government Code, as proposed to be amended, would authorize the payment of any portion of automobile liability insurance or damage to the automobile of an employee.

Very truly yours,

FRED B. WOOD, Legislative Counsel
By JOSEPH L. KNOWLES, Deputy

cc to authors pursuant to Joint Rule 34.

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA

GOVERNOR'S OFFICE, SACRAMENTO, May 29, 1947

*To the Senate of the State of California
Sacramento, California*

GENTLEMEN: I am transmitting to you herewith a copy of a message with reference to Senate Bill No. 1075, entitled, "An act to add Section 6.15 to the Alcoholic Beverage Control Act, relating to alcoholic beverages."

This bill, with my message relative thereto, I (through my Legislative Secretary) delivered to Hon. J. Howard Williams, Member of the Senate, at 9.10 o'clock p.m. on the twenty-eighth day of May, 1947, at which time your honorable body had adjourned for the day but not for the session.

Respectfully submitted.

EARL WARREN, Governor

Message read, and ordered printed in the Journal.

STATE OF CALIFORNIA

GOVERNOR'S OFFICE, SACRAMENTO, May 28, 1947

*To the Honorable Members of the Senate
State of California
Sacramento, California*

GREETINGS: I am returning herewith without my signature,

Senate Bill No. 1075, entitled: "An act to add Section 6.15 to the Alcoholic Beverage Control Act, relating to alcoholic beverages."

My objections to this bill are as follows:

I have been advised by mayors, chiefs of police, and district attorneys that the bill would cast an unnecessary additional burden on the now overtaxed law-enforcement agencies of their cities and counties. They state that the present number of liquor licenses already strain both their personnel and their finances.

Because the number of licenses that might be issued pursuant to this bill cannot be foreseen, and because of the opinion of these law-enforcement officers as to its effect on police conditions in their communities, I am returning the bill without my approval.

Respectfully submitted.

EARL WARREN, Governor

Message read, and ordered printed in the Journal.

Senate Bill No. 1075 ordered to the unfinished business file.
